Chairman's Statement

On behalf of the Board, I hereby present to the Shareholders the annual report of the Company for the FY2020.

Our Group's revenue for the FY2020 was amounted to approximately HK\$54.5 million (FY2019: HK\$65.1 million) representing a year-on-year decrease of 16.3%, and a loss after taxation was HK\$0.5 million (FY2019: profit of HK\$0.2 million).

It has been a challenging year for the Group as market sentiments continue to be filled with uncertainties due to the months of large-scale protests and the unstable political environment in Hong Kong in Q2 and Q3 to the novel coronavirus 2019 ("COVID-19") pandemic unfolding in Q4 of FY2020. Our clients' risks appetites were affected by the continuous uncertainties which stemmed a fair amount of drawback of our clients' trading activities which led to our decrease in commission income.

Looking forward, as the COVID-19 pandemic continues to impact the global economy, we are prepared for a rough year ahead in 2021. Despite the challenging markets ahead, the Board believes we would be able to leverage our existing platform and resources to expand our product suite as well as making new hires to capture higher market share. The Company has recently acquired very experienced professionals to strengthen our core brokerage team and the Board is confident the new add-ons will bring positive impact to our revenue stream.

As an enterprise based in Hong Kong, the Company is committed to becoming a leading inter-dealer broker in the region. We shall strive to strike a balance between stability and innovation to sustain high-quality service for our clients and returns for our shareholders.

On behalf of the Board, I wish to take this opportunity to express my appreciation to our Shareholders, investors and clients for their continuous support. I would also like to express my sincere gratitude to the management and staff of the Group for their commitment and contribution throughout the years. I will work closely with other members of the Board to overcome any difficulties and challenges the Group may face in the year ahead. We are committed to strive for long-term growth and reward for our Shareholders.

On behalf of the Board
Lau Ming Yeung, Lambert

Management Discussion and Analysis

BUSINESS REVIEW AND OUTLOOK

The Group is an interdealer broker in Hong Kong providing derivatives brokerage services to Professional Investors (as defined under the SFO) through its wholly-owned subsidiary, De Riva, which is a licensed corporation under the SFO and a HKFE Exchange Participant. De Riva is licensed by the Securities and Futures Commission of Hong Kong (the "SFC") to carry out type 1 (dealing in securities) and type 2 (dealing in futures contracts) regulated activities in Hong Kong for Professional Investors without providing any margin financing services. Under the licensing condition, De Riva can only provide services to Professional Investors.

The principal business of the Group is derivatives brokerage, which involves matching and/or executing and settling derivatives trade orders for the customers. When the customers place a trade order, it usually involves a combination of futures and options and other derivatives products, which are typically viewed as a single product by the customers in the derivatives market. During the period under review, the Group derived all of the revenue from commission income for derivatives brokerage services provided to the customers.

For the FY2020, the trade orders involved listed derivatives products which were either executed on the Hong Kong Exchanges and Clearing Limited (the "HKEx") or Singapore Exchange (the "SGX"), and non-listed derivatives products which were all executed over-the-counter ("OTC"). The Group has, through De Riva, entered into arrangements with a number of execution brokers to provide derivative services for SGX listed derivatives and HKEx listed single stock options as De Riva does not have the relevant trading rights. Hence, De Riva acted as an agent to arrange for and match up trade orders without providing any execution, settlement or clearing services, and trading parties are directly responsible for all risks involved in the OTC transactions.

For the FY2020, the revenue was approximately HK\$54.5 million, representing a decrease of approximately 16.3% when compared with the revenue of approximately HK\$65.1 million of FY2019.

FINANCIAL REVIEW

Revenue

The revenue decreased from approximately HK\$65.1 million for the FY2019 to approximately HK\$54.5 million for the FY2020, representing a drop of approximately 16.3%. The decrease was mainly due to the decrease in trade volume for HKEx and SGX.

The following table sets forth the revenue breakdown for the FY2020, together with the comparative results for the FY2019:

	For the year ended 31 March			
	2020 (Audited)		2019 (Audited)	
	HK\$'000	%	HK\$'000	%
HKEx	43,011	79.0	49,964	76.7
SGX	6,035	11.1	9,403	14.4
OTC	5,414	9.9	5,781	8.9
TOTAL	54,460	100.0	65,148	100.0

Staff costs

Staff costs comprise salaries, provident fund contribution and other allowances. The staff costs decreased from approximately HK\$37.2 million for the FY2019 to approximately HK\$30.3 million for the FY2020, representing a drop of approximately 18.5%. The decrease was mainly attributable to the decrease in bonus payment which was in line with the decrease in revenue of the Group.

Depreciation

Depreciation increased from approximately HK\$0.6 million for FY2019 to approximately HK\$2.8 million for FY2020, representing an increase of approximately 366.7%. The significant increase was largely attributable to the impact of the adoption of HKFRS 16 since April 2019. In FY2020, approximately HK\$1.8 million of depreciation expense on the right-of-use assets was charged as depreciation. There were no right-of-use assets recorded in FY2019.

Other operating expenses

The other operating expenses increased from approximately HK\$21.1 million for FY2019 to approximately HK\$21.7 million for FY2020, representing a growth of approximately 2.8%. The increase was mainly due to the increase in error expenses and legal and professional fee and netting off by the decrease in clearing fees, rental expenses and marketing expenses.

The error expenses for the FY2020 was approximately HK\$4.6 million, representing an increase of approximately HK\$2.4 million or 109.1% (FY2019: HK\$2.2 million). It was due to the one-off incident on 21 May 2019, where De Riva, an indirect wholly owned subsidiary of the Company, recorded a material human error trade resulting in a loss of approximately HK\$2.7 million. The error trade resulted from the unfamiliarity of the execution broker in using the new system imposed by the Hong Kong Futures Exchange Limited.

The legal and professional fee for the FY2020 was approximately HK\$2.6 million, representing an increase of approximately HK\$1.3 million or 100% (FY2019: HK\$1.3 million). The increase was due to the professional fee for ongoing professional services rendered after the listing of the issued shares of the Company on GEM of the Stock Exchange on 27 August 2018.

The clearing fees for the FY2020 was approximately HK\$4.6 million, representing a decrease of approximately HK\$0.4 million or 8% (FY2019: HK\$5.0 million). Such decrease was in line with the drop of trade volume for HKEx and SGX during the FY2020.

There were no rental expenses recorded for the FY2020 (FY2019: HK\$2.0 million). It is due to the adoption of HKFRS 16 since April 2019.

The marketing expenses for the FY2020 was approximately HK\$2.4 million, representing a decrease of approximately HK\$0.6 million or 20% (FY2019: HK\$3.0 million) which was generally in line with the decrease in revenue of the Group.

Income tax expense

Income tax expense for the FY2020 was approximately HK\$163 thousand, while the income tax expense of the FY2019 was approximately HK\$1.1 million, which was in line with the drop of net profit before tax during the FY2020.

Loss for the year

The Group recorded a loss of approximately HK\$457 thousand for the FY2020 (FY2019: profit of HK\$0.2 million). By excluding the one-off listing expenses of approximately HK\$5.0 million for the FY2019, the loss for the FY2020 would be adjusted to loss of approximately HK\$457 thousand (FY2019: profit of HK\$5.2 million). The increase in loss was mainly due to the decrease in revenue, increase in other operating expenses, as a result of a material human error occurred in May 2019 netting off by the decrease in staff costs during the FY2020 as discussed above.

Management Discussion and Analysis

LIQUIDITY AND FINANCIAL RESOURCES

	As at 31 March 2020	As at 31 March 2020	As at 31 March 2019	As at 31 March 2019

Gearing Ratio (times) (Note iii)	N/A	N/A	N/A	N/A
Debt to equity ratio (Note iv)	Net cash	Net cash	Net cash	Net cash

Notes:

- (i) The calculation of current ratio is based on current assets divided by current liabilities.
- (ii) Interest coverage is based on (loss) profit before interest and finance cost for the year.
- (iii) The calculation of gearing ratio is based on the total loans and borrowings divided by total equity.
- (iv) Debt to equity ratio is calculated by dividing net debt (total loans and borrowings net of cash and cash equivalent) by total equity and expressed in percentage.
- (v) The ratios are calculated by adjusted net profit from the non-recurring listing expenses incurred for the respective period/year. Adjusted net profit for the period/year represents our profit for the period/year excluding listing expenses. Adjusted net profit is not a measure of performance under HKFRS measures has limitations as an analytical tool, and you should not consider it in isolation from, or as substitute for analysis of, our results of operations or financial condition as reported under HKFRS.

The Group recorded a current ratio of approximately 11.1 times as at 31 March 2020 (as at 31 March 2019: 18.0 times), reflecting the financial competence of the Group.

As at 31 March 2020, the Group's cash and bank balances amounted to approximately HK\$56.6 million (as at 31 March 2019: HK\$59.1 million). The Group recorded interest coverage of approximately (3.1) times (as at 31 March 2019: 44.3 times). The adjusted interest coverage after excluding listing expenses would be approximately (3.1) times (as at 31 March 2019: 211.9 times). The Group has sufficient resources to satisfy its working capital and sustain its business.

As at 31 March 2020, overall interest bearing liabilities of the Group are nil (as at 31 March 2019: Nil), therefore the gearing ratio was not applicable to the Group. The Company does not have any long term liabilities.

The Group recorded net cash positions as at 31 March 2020 and 31 March 2019 respectively and therefore debt to equity ratio analysis was not applicable.

ERROR EXPENSES AND FACILITATION EXPENSES

The Group's error expenses and facilitation expenses for the new error report filings are as follows:

	Error Expenses HK\$'000 (Unaudited)	Facilitation Expenses HK\$'000 (Unaudited)
April 2019	-	198
May 2019	2,673	148
June 2019	-	144
July 2019	-	100
August 2019	-	260
September 2019	-	144
October 2019	-	181
November 2019	-	69
December 2019	-	165
January 2020	-	166
February 2020	-	218
March 2020	-	136

Note: The new error report filings were put into practice on 13 December 2017.

The error trades generally resulted from unintentional human errors and the daily business operations are closely monitored by the management team.

On 21 May 2019, the Group recorded a material human error trade resulting in a loss of approximately HK\$2.7 million. The error trade resulted from the unfamiliarity of the execution broker in using the new system imposed by the Hong Kong Futures Exchange Limited. Additional trainings have been and will continue to be provided by the Group to familiarise its staff with the new system and facilitate the implementation of the new system by the Group and keep its staff informed of any updates from time to time going forward. The Board has cautioned the execution broker and taken disciplinary action against the execution broker, which includes the forfeiture of a part of the year-end bonus of the execution broker.

TREASURY POLICY

The Group has adopted a prudent financial management approach towards its treasury policies and thus maintained a healthy liquidity position throughout the FY2020. To manage liquidity risk, the Group monitors the liquidity position daily to ensure that the liquidity structure of the Group's assets, liabilities and other commitment can meet the funding and SFC regulatory requirement.

CAPITAL STRUCTURE

On 30 July 2018, the Company increased its authorised share capital to HK\$50 million divided into 5,000,000,000 ordinary shares of the Company (the "Shares") of HK\$0.01 each.

The Shares were subsequently listed on GEM of the Stock Exchange on 27 August 2018. There has been no change in the capital structure of the Group since then. The share capital of the Company only comprises ordinary Shares.

As at the date of this report, the Company's issued share capital was HK\$8 million divided into 800,000,000 ordinary Shares of HK\$0.01 each.

Management Discussion and Analysis

Corporate Governance Report

CORPORATE GOVERNANCE PRACTICES

The Company recognises the importance of good corporate governance in maintaining its corporate transparency and accountability. The Board sets appropriate policies and implements corporate governance practices appropriate to the conduct and growth of the Group's business.

The Company has applied the principles as set out in the CG Code during the FY2020.

The Board considers that during FY2020, the Company has complied with all the code provisions set out in the CG Code. Key corporate governance principles and practices of the Company are summarised below.

A THE BOARD

A1. Responsibilities and Delegation

The Board is the highest decision-making and managing body of the Company which is responsible for the leadership, control and management of the Company, establishing and delivering the Company's strategies and objectives, including formulating long-term corporate strategy and setting business development plans, supervising and monitoring performance of the management, and overseeing the Group's business, strategic decisions and performances in the attainment of the objectives of ensuring effective functioning and growth of the Group and enhancing value to investors. All the Directors carry out their duties in good faith, take decisions objectively and act in the interests of the Company and its Shareholders at all times.

The Board has power to make its decision on all major matters of the Company, including the approval and monitoring of all policy matters, overall strategies and budgets, internal control and risk management systems, material transactions (in particular those that may involve conflict of interests), financial information, appointment of Directors and other significant financial and operational matters.

All Directors have timely access to all relevant information as well as the advice and services of the Company Secretary and senior management, with a view to ensuring compliance with Board procedures and all applicable laws and regulations. Any Director may request for independent professional advice in appropriate circumstances at the Company's expense, upon reasonable request made to the Board.

The senior management is delegated the authority and responsibilities by the Board for the day-to-day management and operation of the Group. The delegated functions and work tasks are periodically reviewed. Approval has to be obtained from the Board prior to any significant transactions being entered into by the above-mentioned officers. The Board has the full support of the senior management to discharge its responsibilities.

Corporate Governance Report

A2. Board Composition

The composition of the Board during the FY2020 and up to the date of this report is as follows:

Executive Directors

Mr. Lau Ming Yeung, Lambert	<i>(Chairman of the Board, member of both the Remuneration Committee and the Nomination Committee)</i>
Mr. Choi Man Ho	<i>(Chief Executive Officer)</i>
Mr. Lee Tik Man, Dick	<i>(resigned on 1 June 2020)</i>
Mr. Fung Wai Yip, Patrick	<i>(resigned on 1 June 2020)</i>
Mr. Ng Yu Fai	
Mr. Shiu Kam Man	<i>(appointed on 1 June 2020)</i>

Non-executive Director

Mr. Yu Kwok Tung	<i>(resigned on 1 June 2020)</i>
------------------	----------------------------------

Independent Non-executive Directors

Mr. Voon David Hian-fook	<i>(Chairman of the Remuneration Committee and member of both the Audit Committee and the Nomination Committee)</i>
Mr. Or Kevin	<i>(Chairman of the Audit Committee)</i>
Mr. Wu Ping Lam Michael David	<i>(Chairman of the Nomination Committee and member of both the Audit Committee and the Remuneration Committee)</i>

Throughout the FY2020, the Board has met the requirements of the GEM Listing Rules 5.05 and 5.05A of having a minimum of three independent non-executive Directors (representing at least one-third of the Board) with at least one of them possessing appropriate professional qualifications and accounting and related financial management expertise.

The members of the Board have skills and experience appropriate for the business requirements and objectives of the Group. Executive Directors are responsible for the business and functional division of the Group in accordance with their expertise. The independent non-executive Directors bring different business and financial expertise, experiences and independent judgement to the Board and they are invited to serve on the Board committees of the Company. Through participation in Board meetings, and taking the lead in managing issues involving potential conflicts of interests, the independent non-executive Directors have made contributions to the effective direction of the Company and provided adequate checks and balances to safeguard the interests of both the Group and the shareholders.

The Company has received written annual confirmation from each independent non-executive Director of his independence pursuant to the requirements of the GEM Listing Rules. The Company considers all independent non-executive Directors to be independent in light of the independence guidelines set out in Rule 5.09 of the GEM Listing Rules.

The biographical details of the Directors and the relationships between Board members, if any, are set out under the section headed "Biographical Details of Directors and Senior Management" in this annual report.

A3. Chairman and Chief Executive Officer

The Company supports the division of responsibility between the Chairman of the Board and the Chief Executive Officer in order to ensure a balance of power and authority and preserve a balanced judgement of views. Currently, Mr. Lau Ming Yeung, Lambert takes up the role of the Chairman of the Board and is responsible for the management of the Board and ensuring that all major and appropriate issues are discussed by the Board in a timely and constructive manner. Mr. Choi Man Ho is the Chief Executive Officer, who takes care of the day-to-day management of the Group's business and implementing the Group's strategic plans and business objectives.

A4. Appointment and Re-election of Directors

All Directors are appointed for a specific term. Each of the executive Directors is engaged on a service contract for an initial term of 3 years, and shall be automatically renewable for successive terms of one year each commencing from the next day after the expiry of the current term unless or until terminated by either party by giving to the other not less than 3 months' notice in writing. Each of the non-executive and independent non-executive Directors is appointed for an initial term of 3 years, unless terminated by either party by giving to the other not less than 3 months' notice in writing.

The procedures and process of appointment and removal of Directors are laid down in the Company's Articles. According to the Articles, one-third of the Directors for the time being (or, if their number is not a multiple of three, the number nearest to but not less than one-third) shall retire from office by rotation at each AGM provided that every Director shall be subject to retirement by rotation at least once every three years. The retiring Directors shall be eligible for re-election at the relevant AGM. In addition, any new Director appointed by the Board to fill a casual vacancy shall hold office until the first general meeting of shareholders after his appointment, and any Director appointed by the Board as an addition to the existing Board shall hold office only until the next following AGM. The Director appointed by the Board as aforesaid shall be eligible for re-election at the relevant general meeting.

At the 2020 AGM, Mr. Shiu Kam Man, Mr. Voon David Hian-fook and Mr. Or Kevin shall retire pursuant to the Articles provisions stated in the foregoing paragraph. All of the above retiring Directors, being eligible, will offer themselves for re-election at the 2020 AGM. The Board and the Nomination Committee recommended their re-appointment. The circular of the Company, sent together with this report, contains detailed information of these three Directors as required by the GEM Listing Rules.

Corporate Governance Report

A5. Training and Continuing Development for Directors

Each newly appointed Director shall receive formal induction on the first occasion of his appointment, so as to ensure that he has appropriate understanding of the business and operations of the Group and that he is fully aware of his responsibilities and obligations under the GEM Listing Rules and relevant regulatory requirements.

The existing Directors are continually updated with legal and regulatory developments, and the business and market changes to facilitate the discharge of their responsibilities. Continuing briefings and professional development for Directors are arranged whenever necessary. In addition, reading materials on new or changes to salient laws and regulations applicable to the Group are provided to Directors from time to time for their studying and reference.

The Directors are required to submit to the Company details of the training they received in each financial year for the Company's maintenance of proper training records of the Directors. According to the training records currently maintained by the Company, during the FY2020, the Directors have complied with the code provision A.6.5 of the CG Code on participation in continuous professional training as follows:

	Type of training/education

Schedules for regular Board meetings are normally agreed with Directors in advance to facilitate their attendance. At least 14 days' notice for all regular Board meetings will be given to all Directors and all Directors are given the opportunity to include items or businesses for discussion in the agenda. For all other Board meetings, reasonable notice will be given. Relevant agenda and accompanying meeting papers will be sent to all Directors in a timely manner and at least three days in advance of every regular Board meeting.

In addition, the Chairman of the Board held one meeting with the independent non-executive Directors without the presence of other Directors during the FY2020.

Corporate Governance Report

A7. Directors' Securities Transactions

The Company has adopted the Required Standard of Dealings as its own code of conduct regarding the Directors' dealings in the Company's securities. Specific enquiries have been made to all the Directors and all Directors have confirmed that they have complied with the Required Standard of Dealings throughout the FY2020.

The Company has also established written guidelines on terms no less exacting than the Required Standard of Dealings (the "**Securities Dealing Code**"), governing securities transactions by employees who are likely to possess inside information of the Company and/or its securities. No incident of non-compliance of the Securities Dealing Code by relevant employees was noted by the Company.

In case when the Company is aware of any restricted period for dealings in the Company's securities, the Company will notify its Directors and relevant employees in advance.

A8. Corporate Governance Functions

The Board as a whole is responsible for performing the corporate governance functions set out in the code provision D.3.1 of the CG Code. The Board has reviewed and monitored the Company's corporate governance policies and practices, the training and continuous professional development of Directors and senior management, the Company's policies and practices on compliance with legal and regulatory requirements, the compliance of the required standard of dealings and the Employees Written Guidelines, and the Company's compliance with the CG Code and disclosure in this Corporate Governance Report.

B. BOARD COMMITTEES

The Board has established four Board committees, namely, the Executive Committee, the Remuneration Committee, the Nomination Committee and the Audit Committee, for overseeing particular aspects of the Company's affairs. All Board committees have been established with defined written terms of reference which are available on the Stock Exchange's website and the Company's website. All the Board committees should report to the Board on their decisions or recommendations made.

All Board committees are provided with sufficient resources to discharge their duties and, upon reasonable request, are able to seek independent professional advice in appropriate circumstances, at the Company's expenses.

B1. Executive Committee

The Executive Committee comprises all the executive Directors with the Chairman of the Board, Mr. Lau Ming Yeung, Lambert, acting as the chairman. The Executive Committee operates as a general management committee under the direct authority of the Board to increase the efficiency for the business decisions. It monitors the execution of the Company's strategic plans and operations of all business units of the Group and discusses and makes decisions on matters relating to the management and day-to-day operations of the Company.

B2. Audit Committee

The Company has met the GEM Listing Rules requirements regarding the composition of the Audit Committee throughout the FY2020. The Audit Committee comprises a total of 3 members, being the 3 independent non-executive Directors, namely Mr. Or Kevin (chairman of the Audit Committee), Mr. Voon David Hian-fook and Mr. Wu Ping Lam Michael David. Mr. Or Kevin possesses the appropriate professional qualification, and accounting and financial management expertise as required under Rule 5.05(2) of the GEM Listing Rules. None of the members of the Audit Committee is a former partner of the Company's existing external auditor.

The main duties of the Audit Committee are reviewing and monitoring integrity of the financial information and reports of the Group, and considering any significant or unusual items raised by the Company's staff responsible for the accounting and financial reporting function, compliance officer or auditors before submission to the Board; reviewing the relationship with and the terms of appointment of the external auditor and making relevant recommendation to the Board; and reviewing the Company's financial reporting system, risk management and internal control systems.

The Audit Committee has held four meetings during the FY2020 (the attendance records of each Committee member are set out in section A6 above) and performed the following major works:

- Reviewed the Group's consolidated financial statements, results announcements and reports for the year ended 31 March 2019, for the three months ended 30 June 2019, for the six months ended 30 September 2019 and for the nine months ended 31 December 2019;
- Reviewed and discussed the related accounting principles and practices adopted by the Group, the relevant audit findings, the report on the Company's risk management and internal control review;
- Reviewed the compliance of the Deed of Non-Competition by the Company's controlling shareholders;
- Made recommendation of the re-appointment of the external auditor; and
- Reviewed the arrangements for employees of the Company to raise concerns about possible improprieties.

The external auditor has attended two of the above meetings and discussed with the Audit Committee members on the interim and annual results.

Besides, there is no disagreement between the Board and the Audit Committee regarding the appointment of external auditor.

B3. Nomination Committee

The Nomination Committee comprises a total of 3 members, namely Mr. Wu Ping Lam Michael David (chairman of the Nomination Committee), Mr. Lau Ming Yeung, Lambert and Mr. Voon David Hian-fook. Throughout the FY2020, the Company has met the code provision A.5.1 of the CG Code of having a majority of the Nomination Committee members being independent non-executive Directors, and having the Nomination Committee chaired by an independent non-executive Director.

Corporate Governance Report

The principal responsibilities of the Nomination Committee are to review the structure, size and composition (including the skills, knowledge and experience required) of the Board at least annually and make recommendations on any proposed changes to the Board to complement the Company's corporate strategy; identify and nominate appropriate candidates to fill casual vacancies of Directors for the Board's approval; assess the independence of independent non-executive Directors; and review succession planning for the chairman of the Board, the chief executive as well as the senior management of the Company, taking into account the Company's corporate strategy and the mix of skills, knowledge, experience and diversity needed in the future, together with the Board, as appropriate.

The Company also recognises and embraces the benefits of having a diverse Board to enhance the quality of its performance. To comply with Rule 17.104 of the GEM Listing Rules, a Board diversity policy has been adopted by the Company, pursuant to which the Nomination Committee is responsible for monitoring the implementation of the Board diversity policy and assessing the Board composition under diversified perspectives (including but not limited to gender, age, cultural and educational background, or professional experience). The Nomination Committee shall report its findings and make recommendations to the Board, if any. Such policy and objectives will be reviewed from time to time to ensure their effectiveness in determining the optimum composition of the Board. The Nomination Committee considered that an appropriate balance of diversity perspectives of the Board is maintained during the FY2020.

In making recommendations for appointment and re-appointment of Directors, the Nomination Committee may consider certain factors such as the diversity on the Board, the competency, business, technical, or specialised skills and experience of Board member/potential Board member, and the ability, time, commitment and willingness of a new Board member to serve and an existing Board member to continue service.

For the nomination process of new Director, the Nomination Committee and/or the Board should, upon receipt of the proposal on appointment of new Director and the biographical information (or relevant details) of the candidate, evaluate such candidate based on the criteria as set out above to determine whether such candidate is qualified for directorship. If the process yields one or more desirable candidates, the Nomination Committee and/or the Board should rank them by order of preference based on the needs of the Company and reference check of each candidate (where applicable). The Nomination Committee should then recommend to the Board to appoint the appropriate candidate for directorship, as applicable. For any person that is nominated by a Shareholder for election as a Director at the general meeting of the Company, the Nomination Committee and/or the Board should evaluate such candidate based on the criteria as set out above to determine whether such candidate is qualified for directorship. Where appropriate, the Nomination Committee and/or the Board should make recommendation to Shareholders in respect of the proposed election of Director at the general meeting.

The Company has also adopted the Director Nomination Policy. Such policy, devising the criteria and process of selection and performance evaluation, provides guidance to the Board on nomination and appointment of Directors. The Board believes that the defined selection process is good for corporate governance in ensuring the Board continuity and appropriate leadership at Board level, enhanced and better Board effectiveness and diversity as well as compliance with the applicable rules and regulations.

During the FY2020, the Nomination Committee has held one meeting (the attendance records of each Committee member are set out in section A6 above), in which the Nomination Committee members (i) reviewed the structure, size and composition of the Board to ensure that it has a balance of skills, knowledge and experience appropriate to the Group's corporate strategy; (ii) assessed the independence of all the independent non-executive Directors; and (iii) recommended the re-election of the Directors at the 2019 AGM.

B4. Remuneration Committee

The Remuneration Committee comprises a total of 3 members, namely Mr. Voon David Hian-fook (chairman of the Remuneration Committee), Mr. Lau Ming Yeung, Lambert and Mr. Wu Ping Lam Michael David. Throughout the FY2020, the Company has met the GEM Listing Rules requirements of having the majority of the Remuneration Committee members being independent non-executive Directors, as well as having the Remuneration Committee chaired by an independent non-executive Director.

The principal responsibilities of the Remuneration Committee include making recommendations to the Board on the Company's remuneration policy and structure, and the remuneration packages of Directors and members of senior management (i.e. the model described in the code provision B.1.2(c)(ii) of the CG Code is adopted). The Remuneration Committee is also responsible for establishing a formal and transparent procedure for developing such remuneration policy and structure to ensure that no Director or any of his associates will participate in deciding his own remuneration, which remuneration will be determined by the Board with reference to the performance of the individual, salaries paid by comparable companies, responsibilities and employment conditions of the Group.

During the FY2020, the Remuneration Committee has held five meetings (the attendance records of each Committee member are set out in section A6 above), in which the existing remuneration policy and structure of the Company and the remuneration packages of Directors and senior management of the Company were reviewed and relevant recommendations were made to the Board; and the performance bonus for Directors, senior management and the general staff of the Company were determined.

Pursuant to code provision B.1.5 of the CG Code, the annual remuneration of the members of the senior management (including the executive Directors) by band for the FY2020 is set out below:

Remuneration band (HK\$)	Number of individual(s)
0-1,000,000	-
1,000,001-2,000,000	4
2,000,001-3,000,000	-

Corporate Governance Report

C. DIRECTORS' RESPONSIBILITIES FOR FINANCIAL REPORTING IN RESPECT OF THE FINANCIAL STATEMENTS

The Directors have acknowledged their responsibilities for preparing the financial statements of the Company for the FY2020.

The Board is responsible for presenting a balanced, clear and understandable assessment of annual and interim reports, inside information announcements and other disclosures required under the GEM Listing Rules and other regulatory requirements. The management has provided such explanation and information to the Board as necessary to enable the Board to make an informed assessment of the financial information and position of the Group put forward to the Board for approval.

There are no material uncertainties relating to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern.

D. RISK MANAGEMENT AND INTERNAL CONTROLS

The Board acknowledges its responsibility for the risk management and internal control systems and reviewing their effectiveness. Such systems are designed to manage rather than eliminate the risk of failure to achieve business objectives, and can only provide reasonable and not absolute assurance against material misstatement or loss.

The Board has the overall responsibility for evaluating and determining the nature and extent of the risks it is willing to take in achieving the Company's strategic objectives, and establishing and maintaining appropriate and effective risk management and internal control systems. The Audit Committee assists the Board in leading the management and overseeing their design, implementation and monitoring of the risk management and internal control systems and makes relevant recommendations. The Board reviews the effectiveness of the risk management and internal control systems as well as the internal audit function of the Company for each financial year on an annual basis through the Audit Committee.

The Company has developed and adopted various risk management procedures and guidelines with defined authority for implementation by key business processes and office functions, including project management, finance, human resources and information technology. Self-evaluation has been conducted annually to confirm that control policies are properly complied with by each department.

All departments conducted internal control assessment regularly to identify risks that potentially impact the business of the Group and various aspects including key operational and financial processes, regulatory compliance and information security. The management, in coordination with department heads, assess the likelihood of risk occurrence, provide treatment plans, and monitor the risk management progress. The Company has engaged an external professional firm for providing the internal audit function and performing independent review of the adequacy and effectiveness of the risk management and internal control systems. The internal audit function examined key issues in relation to the accounting practices and all material controls and provided its findings and recommendations for improvement to the Audit Committee.

The management has reported to the Board and the Audit Committee on the effectiveness of the risk management and internal control systems for the FY2020. Significant internal control deficiencies are reported to the Audit Committee and the Board on a timely basis to ensure that prompt remediation and subsequent actions are taken to improve the situations.

Based on the reports submitted by the management and the various management controls put in place, the Board, with the support of the Audit Committee, reviewed the risk management and internal control systems (including the financial, operational and compliance controls) for the FY2020, and considered that such systems are effective and adequate. Such review of the risk management and internal control systems is conducted annually. The annual review also covered the financial reporting and internal audit function and staff qualifications, experiences and relevant resources.

The Company has developed a policy for handling and dissemination of inside information. The policy provides a general guide to the directors and employees of the Group in handling confidential information and monitoring information disclosure.

E. COMPANY SECRETARY

Mr. Wong Tin Yu (“**Mr. Wong**”) of Tricor Services Limited (“**Tricor**”), an external service provider, acts as the Company Secretary. The primary contact person at the Company with Mr. Wong and Tricor is Ms. Yui Ka Lee, the Chief Financial Officer of the Company.

Mr. Wong and Tricor are responsible for providing advice to the Board on corporate governance matters. Mr. Wong has confirmed that he has taken no less than 15 hours of relevant professional training during the FY2020.

F. EXTERNAL AUDITOR AND AUDITOR’S REMUNERATION

The statement of the external auditor of the Company about their reporting responsibilities on the Company’s financial statements for the FY2020 is set out in the section headed “Independent Auditor’s Report” in this annual report.

G. COMMUNICATIONS WITH SHAREHOLDERS AND INVESTORS

The Company believes that effective communication with shareholders is essential for enhancing investor relations and investors' understanding of the Group's business performance and strategies. The Group also recognises the importance of transparent and timely disclosure of corporate information, which enables shareholders and investors to make the best investment decision.

The Company also strives to provide quality information to Shareholders regarding its latest developments whilst ensuring that relevant information is equally and simultaneously provided and accessible to all interested parties. The Company maintains a website at <http://www.derivaasia.com> as a communication platform with Shareholders and investors, where information and updates on the Company's business developments and operations and other information are available for public access. Shareholders and investors may also send written enquiries or requests to the Company via the following channels:

Address: Units 2601-3, Tai Tung Building, 8 Fleming Road, Wanchai, Hong Kong

Email: admin@dlcasia.com

Tel: (852) 2811 8281

Enquiries and requests will be dealt with by the Company in an informative and timely manner.

Besides, Shareholders' meetings provide an opportunity for communication between the Board and the Shareholders. Board members and senior staff will be available to answer questions raised by the Shareholders at general meetings of the Company. In addition, the Company will invite representatives of the auditor to attend its AGM to answer Shareholders' questions about the conduct of the audit, the preparation and content of the auditor's report, the accounting policies and auditor independence.

H. SHAREHOLDERS' RIGHTS

To safeguard Shareholders' interests and rights, separate resolutions are proposed at Shareholders' meetings on each substantial issue, including the election of individual Directors, for Shareholders' consideration and voting. All resolutions put forward at Shareholders' meetings will be voted by poll pursuant to the GEM Listing Rules and poll results will be posted on the websites of the Company and the Stock Exchange after each Shareholders' meeting.

Pursuant to the Articles, any one or more Shareholders holding at the date of deposit of the requisition not less than one-tenth of the paid up capital of the Company carrying the right of voting at general meetings of the Company shall at all times have the right, by written requisition to the Board or the secretary of the Company, to require an extraordinary general meeting to be called by the Board for the transaction of any business specified in such requisition; and such meeting shall be held within two months after the deposit of such requisition. If within 21 days of such deposit the Board fails to proceed to convene such meeting, the requisitionist(s) himself (themselves) may do so in the same manner, and all reasonable expenses incurred by the requisitionist(s) as a result of the failure of the Board shall be reimbursed to the requisitionist(s) by the Company.

There is no provision allowing Shareholders to move new resolutions at general meetings under the Cayman Islands Companies Law or the Articles. Shareholders who wish to move a resolution may request the Company to convene a general meeting following the procedures set out in the preceding paragraph.

For the avoidance of doubt, Shareholder(s) must provide their full names, contact details and identification, in the originally signed written requisition, notice or statement (as the case may be), in order to give effect thereto. Information of Shareholder(s) may be disclosed as required by law.

With respect to the Shareholders' right in proposing persons for election as Directors, please refer to the procedures available on the website of the Company.

I. CONSTITUTIONAL DOCUMENTS

During the FY2020, the Company has not made any changes to its constitutional documents. An up-to-date version of the memorandum and articles of association of the Company is available on the websites of the Stock Exchange and the Company.

J. DEED OF NON-COMPETITION

In respect of the compliance of the provisions of the Deed of Non-competition by the controlling Shareholders, please refer to the section headed "Deed of Non-competition" in the Directors' Report of this annual report.

Environmental, Social and Governance Report

1. ABOUT THE REPORT

The Environmental, Social and Governance (“**ESG**”) Report published by DLC Asia Limited (the “**Company**”) provides an overview on the policies and performance of the Company and its subsidiaries (collectively the “**Group**” or “**we**”) for the period between 1 April 2019 and 31 March 2020 (the “**Year**”) in achieving sustainable development and fulfilling its corporate social responsibilities.

Scope of the Report

The ESG Report covers the Group’s performance in terms of environmental management and social responsibility for the Year. The environmental key performance indicators (“**KPIs**”) as disclosed in the ESG Report are based on the performance of the principal office of the Group in Hong Kong. For details of corporate governance, please refer to the Corporate Governance Report on pages 17 to 29 of this Annual Report.

Reporting Standard

The ESG Report is prepared in accordance with the “Environmental, Social and Governance Reporting Guide” set out in Appendix 20 to the Rules Governing the Listing of Securities on the GEM of The Stock Exchange of Hong Kong Limited.

Information and Feedback

Your opinions on the Group’s ESG performance are highly valued. Should you have any advice or suggestions, please contact the Company through the following email address: admin@dlcasia.com.

2. STAKEHOLDER ENGAGEMENT

The Group believes that the opinions of stakeholders will allow a clearer understanding on our performance in environmental and social development. Therefore, we actively communicate with our key stakeholders through diversified channels, such as meetings, announcements, company websites, and emails, to understand their concerns and expectations regarding ESG aspects, which could help the Group to formulate and implement short-term and long-term sustainability strategies.

Environmental, Social and Governance Report

The following table sets out our key stakeholders, their requirements and expectations for the Group, and the corresponding response and communication channels.

During the preparation of the ESG report for the Year, the Group has commissioned an independent third-party consultant to assist the Group in conducting internal materiality assessments. The internal investigation process helps the Group to distinguish the material topics at an early stage and acts as a basis for conducting materiality assessments that involve internal and external stakeholders in the future.

Environmental, Social and Governance Report

3. ENVIRONMENTAL PROTECTION

As a responsible corporation, the Group spares no effort in improving environmental quality and reducing its impact on the environment. We strictly comply with applicable local environmental related laws and regulations, such as the *Air Pollution Control Ordinance* and *Waste Disposal Ordinance*. Despite the fact that our business does not engage in activities that would cause significant impacts on the environment and natural resources, the Group still attaches great importance to implementing different policies which regulate waste management, and water, energy and resource usage in the course of our business operations.

Emission Management

As a financial service provider, the Group is not involved in any manufacturing process and does not own any vehicles. Therefore, no air or water pollutant was emitted from our business operations during the Year.

The Group's office operation generates greenhouse gas through indirect emissions from purchased electricity, outbound business trips by employees and methane gas generation at landfill due to disposal of paper waste. The Group did not generate direct greenhouse gas emission during the Year. The greenhouse gas emission data of the Group during the Year are as follows:

Greenhouse Gas Emission	FY2020	FY2019
Total emission of greenhouse gas (tons CO ₂ e)	56	55
Scope 1: Direct emissions (tons CO ₂ e) ¹	0	4
Scope 2: Energy indirect emissions (tons CO ₂ e) ²	54	49
Scope 3: Other indirect emissions (tons CO ₂ e) ³	2	2
Emission of greenhouse gas per employee (tons CO ₂ e/employee)	2.33	1.78

¹ Scope 1 includes the emissions from the use of refrigerants. The Group did not add extra refrigerants during the Year so there was no direct greenhouse gas emission.

² Scope 2 includes the emissions from purchased electricity.

³ Scope 3 includes the emissions from outbound business trips by employees and methane gas generation at landfill due to disposal of paper waste.

Generation of solid waste is another source of emission from the Group. Non-hazardous waste produced by the Group comprises of wastepaper and other garbage from day-to-day office operation, while hazardous waste includes used batteries and toner cartridge. All non-hazardous wastes are collected by the property management department of the commercial building and are handled in an environmentally acceptable manner. For hazardous waste, toner cartridges were collected by suppliers and batteries were disposed of in specific recycling bin. The data of waste generation of the Group during the Year are as follows:

Waste	FY2020	FY2019
Hazardous waste produced (g)	800	600
Hazardous waste produced per employee (g/employee)	33.33	19.36
Non-hazardous waste produced (kg)	1,116	1,470
Non-hazardous waste produced per employee (kg/employee)	46.50	47.42

Environmental, Social and Governance Report

Use of Resources

Apart from monitoring and managing greenhouse gas emission and waste production, the Group is also committed to reducing energy and water consumption, as well as the utilisation of office equipments. Energy consumption of the Group is mainly attributable to purchased electricity, while water consumption mainly comes from toilet usage. Since the water supply and discharge is managed by the property management department of the commercial building, the data of water consumption is not available for disclosure. The water consumption of the Group is minimal and there has been no issue in sourcing water that is fit for purpose for the Year. Besides, due to our business nature, the Group did not generate or use any packaging materials during the Year. The data of resource usage of the Group during the Year are as follows:

Use of Resources	FY2020	FY2019
Total energy consumption (MWh)	67	62
Energy consumption per employee (MWh/employee)	2.79	2.0

Green Operation

Conserving the natural environment is important for sustainable development and the Group is dedicated to promoting green office strategies to maintain an environmentally-friendly operation. To control and reduce the consumption of energy, water and other resources, the Group has implemented a series of resource saving measures in the workplace as set out below:

Energy Consumption Reduction:

- Ensure all lightings, air-conditioners, and other electrical appliances, such as computers and printers, are switched off when not in use
- Separate the office area into different light zones, maximising the use of natural light and installed dimmers for adjusting light intensity
- Use air conditioners with Grade I Energy Efficient Label
- Set a lower temperature limit of 25.5°C for the air conditioning systems
- Allow employees to dress casually under hot weather and on Fridays

Water Conservation:

- Inform the property management department of the commercial building to fix dripping taps immediately once discovered
- Carry out regular leakage tests on concealed piping
- Remind employees to turn off the faucet tightly

Effective Use of Resources:

- Reuse envelopes, folders, and file cards
- Recycle waste paper, plastics, coffee capsules and waste batteries
- Reduce the use of disposable and non-recyclable products
- Replace the use of paper with the use of electronic files
- Evaluate the usage of material to avoid overstock

Green Office:

- Use electronic systems to conduct administrative processes and disseminate information wherever possible
- Encourage duplex copying and setting printing quota for users
- Avoid unnecessary outbound business travels and encourage the use of telephone or video conferencing
- Choose direct flights for unavoidable business trips

4. EMPLOYMENT AND LABOUR PRACTICES

Employees are regarded as the Group's most valuable assets as our competitive strengths come from our experienced senior management with a strong customer base. The Group places great importance to the rights and interests of employees and abides by applicable local labour-related laws and regulations, including but not limited to the *Employment Ordinance*, *Minimum Wage Ordinance*, and *Employment of Children Regulations*. We invest in our employees and provide them with career opportunities to build a strong team and strengthen our business.

Employment

As an equal opportunity employer, the Group offers fair and open recruitment, promotion, and training in respect of the employee's competency, experience, skills, and academic, professional and technical qualifications, regardless of age, gender, marital status, nationality and religion. We require employees to provide identification documents for verification during recruitment processes to ensure there is no child labour practice. Clear job descriptions, duties, place of work, hours of work, remuneration and welfare entitlements are stated in the employment contract before the commencement of employment to prevent any forced labour. In case of resignation, interview by the human resource department will be conducted to gather information relevant to the reasons for the resignation and to collect feedback which may be useful for improvement on the Group's operation. The data of employment of the Group during the Year are as follows:

Training and Development

The Group believes that the career growth and development of employees determines our future prospect. The Group endeavors to provide a diverse range of training and development programmes to foster a culture of continuous learning within the Group as a response to today's changing business environment. Trainings are classified into internal training and external training. Internal training involves on-the-job training, while external training comes in the form of external courses and seminars. The Group requires all licensed employees to undertake a minimum of 5 continuous professional training hours per calendar year for each regulated activity. Also, education allowance and tuition reimbursement are available for employees as an encouragement to advance their career. Data of employee training of the Group during the Year are as follows:

Indicators	FY2020	FY2019
Percentage of employee trained (%)		
By gender		
Female	43	43
Male	76	63
By employee category		
Senior management	75	75

The Group has a well-established appraisal system for our employees as a way to provide incentives for continuous performance improvement and to retain talents. Annual evaluation is performed by department heads for all employees, and staff promotion and salary increments will be determined in respect of the employee's performance under criteria such as product knowledge level, problem solving skills and quality of work. The Group always maximises the promotion opportunity of employees that priority is usually given to internal promotion.

Environmental, Social and Governance Report

Health and Safety

The Group lays strong emphasis on employee's health and well-being. We strictly follow applicable local health and safety related laws and regulations, such as the *Occupational Safety and Health Ordinance*, and have put in a lot of effort to provide a healthy and safe workplace for our employees.

Internal regulations regarding occupational health and safety, such as maintaining a pleasant and organised workplace, keeping adequate first aid facilities, and arranging rescue, fire and evacuation drills annually, are in place to make sure that all employees are safe from injuries or risks to their health. We also require our employees to attend related trainings to identify and mitigate potential hazards that they may be exposed to. In case of any occurrence of injuries or illness being reported, the Group will conduct prompt investigation under internal guidelines, and to file a response to avoid recurrence. During the Year, no work-related fatalities or lost days due to work injuries were reported.

Welfare and Benefits

The Group offers our employees with a wide range of welfare and benefits in order to provide a harmonious and supportive working environment. We adopt the work schedule of 8 working hours per day and 5 working days per week. All employees are entitled to public holidays, as well as annual leave, sick leave, maternity leave, marriage leave, jury service leave and compensation leave. We also aim to offer competitive remuneration to our staff with considerations on market pay levels, pay trends and supply and demand in the labour market. Other benefits of employees include discretionary bonuses, transportation allowance, share award scheme and contributions under the Mandatory Provident Fund Scheme.

5. OPERATION PRACTICES

As the Group is principally engaged in providing financial services, our success highly hinges on market reputation and customers' satisfaction. We adhere to a high standard of business ethics and aim to serve our customers with quality services.

Supply Chain Management

The Group does not have any major supplier due to our business nature. Our suppliers are mainly involved in delivering office equipments, such as stationery, paper and toners. We give priority to products with improved recyclability, reduced packaging, great durability and high energy efficiency.

Product and Service Quality

The Group has exerted itself to provide professional service and create satisfying customer experiences. As regulated by the Securities and Futures Ordinance, we have obtained all necessarily required licenses, permits, certificates and participations, and the majority of our employees are properly licensed as Responsible Officers or Licensed Representatives to carry out the relevant regulated activities.

Our services are dependent on our ability to accurately execute and monitor a large number of transactions, which involve complicated operational procedures. Therefore, we have put in place an internal system for quality management of our trading system, from on boarding a new customer to completing a service agreement. For instance, our settlement department is dedicated to ensure all trade orders are properly recorded and efficiently handled.

Data Privacy

We understand that protecting customer privacy is core to the financial service industry. The Group stringently abides by the *Personal Data (Privacy) Ordinance*, and pays close attention to the confidentiality of our customer's personal data. We collect customer's personal data as and when necessary, and use the information in a responsible manner. Our employees are required to respect the confidentiality of information acquired as a result of business relationships and are prohibited from disclosing such information to third parties without proper and specific authority from management or customers.

To ensure information security, an operation manual was set to secure the safety of database, implement ongoing monitoring and testing of privacy risks, and ensure internet safety and security. The Group constantly monitors and upgrades the information technology infrastructure as a means of securing customer's personal data. Access controls are practiced so that access to the system is required to be authorised by senior management. The computer system and information processing facilities are protected by firewalls and anti-virus software to detect and prevent any potential threats by computer viruses or other malicious software.

Anti-corruption

The Group strictly complies with relevant local anti-corruption related laws and regulations, such as the *Prevention of Bribery Ordinance* and *Anti-Money Laundering and Counter-Terrorist Financing Ordinance*, and takes a zero-tolerance approach towards corruption, bribery, extortion, fraud and money laundering. We have set up control procedures to verify the identities of our customers, closely monitor their activities and identify any unusual transactions. In case of any suspicious transaction or source of funding being detected, we will file reports to the Joint Financial Intelligence Unit for further investigation.

Our employees adhere to the Code of Conduct to ensure the Group runs the business with a high integrity standard. A policy in respect of the giving and receiving of gifts and hospitality is in place to prevent bribery. No employee is allowed to abuse the authority or power for any personal gain. Moreover, to avoid conflict of interests, transactions of employees' accounts are required to be reported and actively monitored by responsible officers who do not have any beneficial or interest in the transactions. A whistle-blowing policy has been adopted by the Group for the report of any suspicious cases of corruption. Employees who breach the anti-corruption policy of the Group will face disciplinary actions.

During the Year, the Group was not aware of any breach of laws and regulations in relation to bribery, corruption, extortion, fraud and money laundering.

6. COMMUNITY INVESTMENT

The Group hopes to serve the community and create positive impacts to society. We actively encourage our employees to participate in different charitable events and volunteering activities to create a loving atmosphere in our community. We will continue to make contributions to the community so as to support the sustainable growth of our society in the future.

The termination provision and provision on retirement by rotation of Directors are set out in the Articles.

Each of the independent non-executive Directors has entered into a letter of appointment with the Company for an initial term of three years, provided that either party may terminate such appointment at any time by giving at least three months' notice in writing.

Save as disclosed above, none of the Directors has a service contract with the Company or any of its subsidiaries which is not determinable by the Company or any of its subsidiaries within one year without payment of compensation, other than statutory compensation.

DONATIONS

During the FY2020, the Group did not make any charitable donations (FY2019: nil).

PENSION SCHEME

Details of the pension scheme of the Company are set out in note 27 to the Consolidated Financial Statements.

PERMITTED INDEMNITY PROVISION

A permitted indemnity provision (as defined in the Companies Ordinance (Chapter 622 of the Laws of Hong Kong)) for the benefit of the Directors is currently in force and was in force throughout the FY2020.

DIRECTORS' INTERESTS IN SIGNIFICANT TRANSACTIONS, ARRANGEMENTS OR CONTRACTS

No transactions, arrangements or contracts of significance in relation to the Group's business to which the Company or any of its subsidiaries was a party and in which a Director or an entity connected with a Director is or was materially interested, either directly or indirectly, subsisted during or at the end of the FY2020.

COMPETING AND CONFLICT OF INTERESTS

The Directors are not aware of any business or interest of the Directors nor the controlling Shareholders nor any of their respective close associates (as defined in the GEM Listing Rules) that competes or may compete with the business of the Company and any other conflicts of interest which any such person has or may have with the Group during the FY2020.

None of the Directors, the controlling Shareholders or substantial Shareholders or any of their respective close associates has engaged in or has interest in any business that competes or may compete, either directly or indirectly, with the businesses of the Group, as defined in the GEM Listing Rules, or has any other conflict of interests with the Group during the FY2020.

DEED OF NON-COMPETITION

As disclosed in the Prospectus, each of Oasis Green Ventures Limited, Pacific Asset Limited and Mr. Yu Kwok Tung (together as the "**Controlling Shareholders**") had entered into a deed of non-competition dated 30 July 2018 (the "**Deed of Non-competition**") in favor of the Company (for itself and as trustee for the benefit of each of the members of our Group from time to time) that with effect from the Listing Date and during the term of the Deed of Non-competition (the "**Restricted Period**"), among other matters, he/it shall not, and shall procure that their respective close associates (other than any member of our Group) not to, whether on his/its own account or in conjunction with or on behalf of any person, firm or company, whether directly or indirectly, (i) engage in, participate or hold any right or interest in or render any services to or otherwise be involved in any business (whether as owner, director, operator, licensor, licensee, partner, shareholder, joint venturer, employee, consultant or otherwise) in competition with or likely to be in competition with the existing business carried on by our Group (including but not limited to providing derivatives brokerage services to Professional Investors in Hong Kong and any other country or jurisdiction to which our Group provides such services and/or in which any member of our Group carries on business mentioned above from time to time (the "**Restricted Business**")); and (ii) take any action which constitutes an interference with or a disruption of the Restricted Business including, but not limited to, solicitation of our Group's customers, service providers or personnel of any member of our Group.

Directors' Report

In order to ensure each of the Controlling Shareholders has complied with the Deed of Non-competition, the following actions have been taken:

- (1) the Company has enquired with each of the Controlling Shareholders, from time to time, on whether he/it or any of his/its associates has engaged in any Restricted Business or is given any business opportunity relating to the Restricted Business;
- (2) the Company has required each of the Controlling Shareholders to give confirmation to the Company on an annual basis as to whether he/it and his/its associates have complied with the Deed of Non-competition;
- (3) each of the Controlling Shareholders has provided to the Company such written confirmation in respect of the compliance with the Deed of Non-competition by him/it and his/its associates for the FY2020; and
- (4) the independent non-executive Directors have reviewed the status of compliance by the Controlling Shareholders with the undertakings in the Deed of Non-competition during the FY2020 and confirmed that, so far as they can ascertain, each of the Controlling Shareholders has complied with the Deed of Non-competition.

The Company is not aware of any other matters regarding the compliance of the Deed of Non-competition that are required to be brought to the attention of the Shareholders, and there has not been any change in terms of the Deed of Non-competition for the FY2020.

RELATED PARTY TRANSACTIONS

Details of related party transactions of the Group during the FY2020 are set out in note 30 to the Consolidated Financial Statements. None of the related party transactions constituted a connected transaction or continuing connected transaction subject to independent Shareholder's approval, annual review and all disclosure requirements in Chapter 20 of the GEM Listing Rules.

PURCHASE, SALE OR REDEMPTION OF THE COMPANY'S LISTED SECURITIES

Neither the Company nor any of its subsidiaries had purchased, sold or redeemed any of the Company's listed securities during the FY2020.

MANAGEMENT CONTRACT

No contracts, other than the Directors' service agreements and appointment letters, concerning the management and administration of the whole or any substantial part of the business of the Company were entered into or existed during the FY2020.

SHARE OPTION SCHEME

The Company conditionally adopted the Share Option Scheme on 30 July 2018. The purpose of the Share Option Scheme is to enable the Company to grant share options to the eligible participants as incentive or reward for their contribution to the Group to subscribe for the Shares thereby linking their interest with that of the Group.

The total number of Shares which may be issued upon exercise of all options to be granted under the Share Option Scheme is 80,000,000 Shares, representing 10% of the total issued share capital of the Company as at the date of this annual report.

No share option has been granted by the Company under the Share Option Scheme since its adoption.

SHARE AWARD SCHEME

The Company adopted a share award scheme on 4 April 2019 (the “Share Award Scheme”). The purpose of the Share Award Scheme is to recognise and reward the contribution of eligible participants to the growth and development of the Group, to give incentives to eligible participants in order to retain them for the continual operation and development of the Group and to attract suitable personnel for further development of the Group.

The Share Award Scheme shall be subject to administration of the Board and the trustee in accordance with the rules of the Share Award Scheme and the trust deed entered into with the trustee. Given that the Share Award Scheme does not involve the grant of options over any new Shares, it does not constitute a share option scheme or an arrangement analogous to a share option scheme for the purpose of Chapter 23 of the GEM Listing Rules. No shareholders' approval was required for the adoption of the Share Award Scheme.

No share award was granted by the Company under the Share Award Scheme during the FY2020.

DIRECTORS' AND CHIEF EXECUTIVE'S INTERESTS AND SHORT POSITIONS IN THE SHARES, UNDERLYING SHARES AND DEBENTURES OF THE COMPANY OR ANY ASSOCIATED CORPORATION

SUFFICIENCY OF PUBLIC FLOAT

Based on the information that is publicly available to the Company and within the best knowledge of the Directors, there is sufficient public float as required under the GEM Listing Rules (i.e. at least 25% of the Shares in issue are held by the public) as at the date of this report.

PRE-EMPTIVE RIGHTS

There is no provision for pre-emptive rights under the Articles or the laws of Cayman Islands which would oblige the Company to offer new Shares on a pro-rata basis to the existing Shareholders.

INTERESTS OF THE COMPLIANCE ADVISER

In accordance with Rule 6A.19 of the GEM Listing Rules, the Company has appointed Red Sun Capital Limited to be its compliance adviser. As notified by Red Sun Capital Limited, as at 31 March 2020, neither Red Sun Capital Limited, nor its directors, employees and close associates had any interest in relation to the Group which is required to be notified to the Group pursuant to Rule 6A.32 of the GEM Listing Rules.

AUDIT COMMITTEE

The Audit Committee currently consists of three members, namely Mr. Or Kevin, Mr. Voon David Hian-fook and Mr. Wu Ping Lam Michael David, all being independent non-executive Directors. The primary duties of the Audit Committee are to review the Company's financial information and reporting process, risk management and internal control systems, relationship with external auditors and arrangements for employees of the Group to raise concerns about possible improprieties in financial reporting, internal control or other matters of the Company. The chairman of the Audit Committee is Mr. Or Kevin, who holds the appropriate professional qualifications. None of the members of the Audit Committee are former partners of the Company's existing external auditors.

The Audit Committee has reviewed the audited consolidated financial statements of the Group for the FY2020.

INDEPENDENT AUDITOR

The Consolidated Financial Statements for the FY2020 has been audited by the independent auditor of the Company, SHINEWING (HK) CPA Limited ("**SHINEWING**"), who will retire and, being eligible, offer themselves for re-appointment at the forthcoming AGM. A resolution for the re-appointment of SHINEWING as the independent auditor of the Company will be proposed to the Shareholders at the forthcoming AGM.

There has been no change in the independent auditor of the Company since the incorporation of the Company and up to the date of this report.

Independent Auditor's Report

SHINEWING (HK) CPA Limited

TO THE SHAREHOLDERS OF DLC ASIA LIMITED

(A company incorporated in the Cayman Islands with limited liability)

OPINION

We have audited the consolidated financial statements of DLC Asia Limited (the “**Company**”) and its subsidiaries (collectively referred to as the “**Group**”) set out on pages 52 to 97, which comprise the consolidated statement of financial position as at 31 March 2020, and the consolidated statement of profit or loss and other comprehensive income, consolidated statement of changes in equity and consolidated statement of cash flows for the year then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies.

In our opinion, the consolidated financial statements give a true and fair view of the consolidated financial position of the Group as at 31 March 2020, and of its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with Hong Kong Financial Reporting Standards (“**HKFRSs**”) issued by the Hong Kong Institute of Certified Public Accountants (the “**HKICPA**”) and have been properly prepared in compliance with the disclosure requirements of the Hong Kong Companies Ordinance.

BASIS FOR OPINION

We conducted our audit in accordance with Hong Kong Standards on Auditing (“**HKSAs**”) issued by the HKICPA. Our responsibilities under those standards are further described in the Auditors’ Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group in accordance with the HKICPA’s Code of Ethics for Professional Accountants (the “**Code**”) and we have fulfilled our other ethical responsibilities in accordance with the Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

KEY AUDIT MATTERS

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

KEY AUDIT MATTERS (CONTINUED)

Valuation of trade receivables

Refer to Note 21 to the consolidated financial statement and the accounting policies on pages 63-66.

The key audit matter	How the matter was addressed in our audit
<p>As at 31 March 2020, the Group had trade receivables of HK\$14,736,000, representing 17% of the Group's total current assets.</p>	<p>Our audit procedures were designed to assess the assumptions and judgements of the Group's ECL model on impairment assessment of trade receivables.</p>
<p>Loss allowance for trade receivables is estimated based on lifetime expected credit losses ("ECL") model, which is estimated by taking into account the credit loss experience and forward looking information including both current and forecast general economic conditions.</p>	<p>We have assessed the reasonableness of management's estimates for loss allowance by examining the information used by management to form such judgements, including testing the accuracy of the historical default data and evaluating whether the historical loss rates are appropriately adjusted based on current economic conditions and forward looking information.</p>

We have identified valuation of trade receivables as a key audit matter because the impairment assessment of trade receivables involved a significant degree of management estimation and may be subject to management bias.

INFORMATION OTHER THAN THE CONSOLIDATED FINANCIAL STATEMENTS AND AUDITOR'S REPORT

The directors of the Company are responsible for the other information. The other information comprises all of the information included in the annual report other than the consolidated financial statements and our auditor's report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact.

We have nothing to report in this regard.

Independent Auditor's Report

RESPONSIBILITY OF DIRECTORS OF THE COMPANY AND THE AUDIT COMMITTEE FOR THE CONSOLIDATED FINANCIAL STATEMENTS

The directors of the Company are responsible for the preparation of the consolidated financial statements that give a true and fair view in accordance with HKFRSs issued by the HKICPA and the disclosure requirements of the Hong Kong Companies Ordinance, and for such internal control as the directors of the Company determine is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, the directors of the Company are responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors of the Company either intend to liquidate the Group or to cease operations, or have no realistic alternative but to do so.

The Audit Committee is responsible for overseeing the Group's financial reporting process.

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion solely to you, as a body, in accordance with our agreed terms of engagement, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with HKSAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with HKSAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors of the Company.

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

- Conclude on the appropriateness of the Company's directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with the Audit Committee regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the Audit Committee with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with the Audit Committee, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement partner on the audit resulting in this independent auditor's report is Mr. Chui Yiu Cheong.

Notes to the Consolidated Financial Statements

For the year ended 31 March 2020

1. CORPORATE INFORMATION

The Company was incorporated in the Cayman Islands under the Companies Law, Chapter 22 (Law 3 of 1961, as consolidated and revised) of the Cayman Islands as an exempted company with limited liability on 1 November 2017 and its shares are listed on the GEM of The Stock Exchange of Hong Kong Limited on 27 August 2018. Its immediate holding company is Oasis Green, a company with limited liability incorporated in the British Virgin Islands. Its ultimate beneficial owner is Mr. Yu.

The addresses of the registered office and the principal place of business of the Company are Cricket Square, Hutchins Drive, PO Box 2681, Grand Cayman, KY1-1111, Cayman Islands and Units 2601-3 Tai Tung Building, 8 Fleming Road, Wanchai, Hong Kong respectively.

The Company is an investment holding company. Its major operating subsidiary, De Riva, was involved in the business of dealing in securities and futures contracts as a futures non-clearing dealer.

The functional currency of the Company and its subsidiaries (hereinafter collectively referred to as the “Group”) is Hong Kong dollar (“HK\$”), which is the same as the presentation currency of the consolidated financial statements.

2. BASIS OF PREPARATION OF CONSOLIDATED FINANCIAL STATEMENTS

Pursuant to the Reorganisation as detailed in the section headed “History, Reorganisation and Corporate Structure” in the prospectus of the Company dated 14 August 2018 (the “Reorganisation”), the Company became the holding company of the companies now comprising the Group on 3 August 2018. The Group, comprising the Company and its subsidiaries, resulting from the Reorganisation, was directly and/or beneficially owned by the same ultimate beneficial owner, Mr. Yu, before and after the Reorganisation.

As such, this Reorganisation is effectively interspersing a shell company over the subsidiaries and there was a continuation of risks and benefits to the ultimate beneficial owner. Accordingly, the Group comprising the Company and its subsidiaries resulting from the Reorganisation is regarded as a continuing entity. The consolidated financial statements of the Group have been prepared as if the Company had always been the holding company of the companies now comprising the Group for the year ended 31 March 2019.

The consolidated statements of profit or loss and other comprehensive income, the consolidated statements of changes in equity and the consolidated statements of cash flows included the results and cash flows of the companies now comprising the Group as if the current group structure had been in existence for the year ended 31 March 2019. No adjustments are made to reflect fair values, or recognise any new assets or liabilities as a result of the Reorganisation.

3. APPLICATION OF NEW AND AMENDMENTS TO HONG KONG FINANCIAL REPORTING STANDARDS (“HKFRSs”)

In the current year, the Group has applied the following new and amendments to HKFRSs, which include HKFRSs, Hong Kong Accounting Standards (“HKAS(s)”), amendments and Interpretations (“Int(s)”), issued by the Hong Kong Institute of Certified Public Accountants (“HKICPA”).

HKFRS 16	Leases
HK (IFRIC) – Int 23	Uncertainty over Income Tax Treatments
Amendments to HKFRS 9	Prepayment Features with Negative Compensation
Amendments to HKAS 19	Plan Amendment Curtailment or Settlement
Amendments to HKAS 28	Long-term Interests in Associates and Joint Ventures
Amendments to HKFRSs	Annual Improvements to HKFRSs 2015-2017 Cycle

3. APPLICATION OF NEW AND AMENDMENTS TO HONG KONG FINANCIAL REPORTING STANDARDS (“HKFRSs”) (CONTINUED)

The adoption of HKFRS 16 resulted in the changes in the Group’s accounting policies and adjustments to the amounts recognised in the consolidated financial statements as summarised below.

The application of other new and amendments to HKFRSs in the current year has had no material impact on the Group’s financial performance and position for the current and prior years and/or on the disclosures set out in these consolidated financial statements.

Impacts on adoption of HKFRS 16 Leases

HKFRS 16 introduces new or amended requirements with respect to lease accounting. It introduces significant changes to the lessee accounting by removing the distinction between operating lease and finance lease and requiring the recognition of right-of-use asset and a lease liability for all leases, except for short-term leases and leases of low value assets. In contrast to lessee accounting, the requirements for lessor accounting have remained largely unchanged. Details of these new accounting policies are described in Note 4. The Group has applied HKFRS 16 retrospectively with the cumulative effect of initial application as an adjustment to the opening balance of equity, where appropriate, at 1 April 2019. Accordingly, certain comparative information may not be comparable as comparative information was prepared under HKAS 17 Leases.

On transition to HKFRS 16, the Group elected to apply the practical expedient to grandfather the assessment of which arrangements are, or contain, leases. It applied HKFRS 16 only to contracts that were previously identified as leases. Contracts that were not identified as leases under HKAS 17 and HK(IFRIC)-Int 4 Determining Whether an Arrangement Contains a Lease were not reassessed. Therefore, the definition of a lease under HKFRS 16 has been applied only to contracts entered into or changed on or after 1 April 2019.

The major impacts of the adoption of HKFRS 16 on the Group’s consolidated financial statements are described below.

The Group as lessee

On adoption of HKFRS 16, the Group recognised lease liabilities in relation to leases which had previously been classified as ‘operating leases’ under the principles of HKAS 17 (except for lease of low value assets and lease with remaining lease term of 12 months or less). These liabilities were measured at the present value of the remaining lease payments, discounted using the lessee’s incremental borrowing rate as of 1 April 2019. The weighted average lessee’s incremental borrowing rate applied to the lease liabilities on 1 April 2019 was 2.6%.

The Group recognises right-of-use assets and measures them at an amount equal to the lease liabilities, adjusted by the amount of any prepaid or accrued lease payments.

3. APPLICATION OF NEW AND AMENDMENTS TO HONG KONG FINANCIAL REPORTING STANDARDS (“HKFRSs”) (CONTINUED)

Impacts on adoption of HKFRS 16 Leases (Continued)

The Group as lessee (Continued)

The following table summarises the impact of transition to HKFRS 16 at 1 April 2019. Line items that were not affected by the adjustments have not been included.

	Note	Carrying amount previously reported at 31 March 2019 HK\$'000	Impact on adoption of HKFRS 16 HK\$'000	Carrying amount as restated at 1 April 2019 HK\$'000
Right-of-use assets	(a)	–	3,450	3,450
Lease liabilities	(a)	–	3,450	3,450

Note:

(a) As at 1 April 2019, right-of-use assets were measured at an amount of HK\$3,450,000 and lease liabilities were measured at an amount of HK\$3,450,000. The adoption of HKFRS 16 has had no material impact on the retained earnings of the Group.

In the consolidated statement of cash flow, the Group as a lessee is required to split rentals paid under capitalised leases into their capital element and interest element. These elements are classified as financing cash outflows, similar to how leases previously classified as finance leases under HKAS 17 were treated, rather than as operating cash outflows, as was the case for operating leases under HKAS 17. The total cash flows are unaffected.

Differences between operating lease commitments as at 31 March 2019, the date immediately preceding the date of initial application, discounted using the incremental borrowing rate, and the lease liabilities recognised as at 1 April 2019 are as follow:

	HK\$'000
Operating lease commitment disclosed as at 31 March 2019	3,540
Discounted using the incremental borrowing rate at 1 April 2019 which represented lease liabilities recognised as at 1 April 2019	3,450
	HK\$'000
Analysed as:	
Current portion	1,779
Non-current portion	1,671
	3,450

3. APPLICATION OF NEW AND AMENDMENTS TO HONG KONG FINANCIAL REPORTING STANDARDS (“HKFRSs”) (CONTINUED)

Practical expedients applied

On the date of initial application of HKFRS 16, the Group has used the following practical expedients permitted by the standard:

- Not to reassess whether a contract is, or contains a lease at the date of initial application. Instead, for contracts entered into before the transition date the Group relied on its assessment made applying HKAS 17 and HK(IFRIC)-Int 4;
- The exclusion of initial direct costs for the measurement of the right-of-use asset at the date of initial application; and
- The use of hindsight in determining the lease term where the contract contains options to extend or terminate the lease.

New and amendments to HKFRSs issued but not yet effective

The Group has not early applied the following new and amendments to HKFRSs that have been issued but are not yet effective:

HKFRS 17	Insurance Contracts ²
Amendments to HKFRS 10 and HKAS 28	Sale or Contribution of Assets between an Investor and its Associate or Joint Venture ³
Amendments to HKFRS 3	Definition of a Business ⁴
Amendments to HKAS 1 and HKAS 8	Definition of Material ¹
Amendments to HKFRS 9, HKAS 39 and HKFRS 7	Interest Rate Benchmark Reform ¹
Conceptual Framework for Financial Reporting 2018	Revised Conceptual Framework for Financial Reporting ¹
Amendments to HKFRS 16	COVID-19-Related Rent Concession ⁵

¹ Effective for annual periods beginning on or after 1 January 2020

² Effective for annual periods beginning on or after 1 January 2021

³ Effective for annual periods beginning on or after a date to be determined

⁴ Effective for business combinations and asset acquisitions for which the acquisition date is on or after the beginning of the first annual period beginning on or after 1 January 2020

⁵ Effective for annual periods beginning on or after 1 June 2020

The directors of the Company anticipate that the application of new and amendments to HKFRSs will have no material impact on the results and the financial position of the Group.

4. SIGNIFICANT ACCOUNTING POLICIES

The consolidated financial statements have been prepared in accordance with HKFRSs issued by the HKICPA. In addition, the consolidated financial statements include applicable disclosures required by the Rules Governing the Listing of Securities on GEM of the Stock Exchange and by the Hong Kong Companies Ordinance.

The consolidated financial statements have been prepared on the historical cost basis.

Historical cost is generally based on the fair value of the consideration given in exchange for goods and services.

Notes to the Consolidated Financial Statements

For the year ended 31 March 2020

4. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants in the principal market at the measurement date under current market condition (i.e. an exit price) regardless of whether that price is directly observable or estimated using another valuation technique.

The principal accounting policies are set out below.

Basis of consolidation

The consolidated financial statements incorporate the financial statements of the Company and its subsidiaries.

Control is achieved where the Group has: (i) the power over the investee; (ii) exposure, or rights, to variable returns from its involvement with the investee; and (iii) the ability to use its power over the investee to affect the amount of the Group's returns. When the Group has less than a majority of the voting rights of an investee, power over the investee may be obtained through: (i) a contractual arrangement with other vote holders; (ii) rights arising from other contractual arrangements; (iii) the Group's voting rights and potential voting rights; or (iv) a combination of the above, based on all relevant facts and circumstances.

The Group reassesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control listed above.

Consolidation of a subsidiary begins when the Company obtains control of the subsidiary and ceases when the Group loses control of the subsidiary.

Income and expenses of subsidiaries are included in the consolidated statement of profit or loss and other comprehensive income from the date the Group gains control until the date when the Group ceases to control the subsidiary.

Profit or loss and each component of other comprehensive income of subsidiaries are attributed to the owners of the Company and to the non-controlling interests. Total comprehensive income of subsidiaries is attributed to the owners of the Company and to the non-controlling interests even if this results in the non-controlling interests having a deficit balance.

All intra-group transactions, balances, income and expenses are eliminated in full on consolidation.

Merger accounting for business combination involving entities under common control

The consolidated financial statements include the financial statements items of the combining entities or businesses in which the common control combination occurs as if the combination had occurred from the date when the combining entities or businesses first came under the control of the controlling party.

The net assets of the combining entities or businesses are consolidated using the existing book values from the controlling party's perspective. No amount is recognised as consideration for goodwill or excess of acquirer's interest in the net fair value of acquiree's identifiable assets, liabilities and contingent liabilities over cost at the time of common control combination, to the extent of the continuation of the controlling party's interest.

The consolidated statement of profit or loss/profit or loss and other comprehensive income includes the results of each of the combining entities or businesses from the earliest date presented or since the date when the combining entities or businesses first came under the common control, where this is a shorter period, regardless of the date of the common control combination.

4. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Revenue recognition

Revenue is recognised to depict the transfer of promised goods and services to customers at an amount that reflects the consideration to which an entity expects to be entitled in exchange for those goods or services to a customer. Specifically, the Group uses a five-step approach to recognise revenue:

- Step 1: Identify the contract(s) with a customer
- Step 2: Identify the performance obligations in the contract
- Step 3: Determine the transaction price
- Step 4: Allocate the transaction price to the performance obligations in the contract
- Step 5: Recognise revenue when (or as) the Group satisfies a performance obligation.

The Group recognises revenue when (or as) a performance obligation is satisfied, i.e. when “control” of the goods or services underlying the particular performance obligations is transferred to customer.

A performance obligation represents a good or service (or a bundle of goods or services) that is distinct or a series of distinct goods or services that are substantially the same.

Control is transferred over time and revenue is recognised over time by reference to the progress towards complete satisfaction of the relevant performance obligation if one of the following criteria is met:

- the customer simultaneously receives and consumes the benefits provided by the Group’s performance as the Group performs;
- the Group’s performance creates or enhances an asset that the customer controls as the asset is created or enhanced; or
- the Group’s performance does not create an asset with an alternative use to the Group and the Group has an enforceable right to payment for performance completed to date.

Otherwise, revenue is recognised at a point in time when the customer obtains control of the distinct good or service.

Contract assets and contract liabilities

A contract asset represents the Group’s right to consideration in exchange for goods or services that the Group has transferred to a customer that is not yet unconditional. It is assessed for impairment in accordance with HKFRS 9 Financial Instruments. In contrast, a receivable represents the Group’s unconditional right to consideration, i.e. only the passage of time is required before payment of that consideration is due.

A contract liability represents the Group’s obligation to transfer goods or services to a customer for which the Group has received consideration (or an amount of consideration is due) from the customer.

For a single contract with the customer, either a net contract asset or a net contract liability is presented. For multiple contracts, contract assets and contract liabilities of unrelated contracts are not presented on a net basis.

The Group recognised revenue from commission income for dealing in securities and futures contracts as a futures non-clearing dealer.

For the year ended 31 March 2020

4. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Revenue recognition (Continued)

Contract assets and contract liabilities (Continued)

Commission income from dealing in securities and futures contracts as a futures non-clearing dealer are recognised at a point in the time when the services for the transactions are completed under the terms of each engagement and the revenue can be measured reliably, since only by that time the Group has a present right to receive payment from the customers for the service performed. The Group allows an average credit period of 30 days to the customers when the dealing in securities and futures contracts as a futures non-clearing dealer are rendered to the customers. The Group has the primary responsibility for providing the services to the customer or for fulfilling the order and being responsible for the acceptability of the services ordered by the customer.

Financial instruments

Financial assets and financial liabilities are recognised on the consolidated statement of financial position when a group entity becomes a party to the contractual provisions of the instrument.

Financial assets and financial liabilities are initially measured at fair value, except for trade receivables arising from contracts with customers which are initially measured in accordance with HKFRS 15 Revenue from Contracts with Customers. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss ("FVTPL")) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition.

Financial assets

All regular way purchases or sales of financial assets are recognised and derecognised on a trade date basis. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the time frame established by regulation or convention in the marketplace.

All recognised financial assets are subsequently measured in their entirety at either amortised cost or fair value, depending on the classification of the financial assets. Financial assets are classified, at initial recognition, as subsequently measured at amortised cost.

The classification of financial assets at initial recognition depends on the financial asset's contractual cash flow characteristics and the Group's business model for managing them.

Financial assets at amortised cost

The Group measures financial assets subsequently at amortised cost if both of the following conditions are met:

- the financial asset is held within a business model whose objective is to hold financial assets in order to collect contractual cash flows; and
- the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Financial assets at amortised cost are subsequently measured using the effective interest method and are subject to impairment.

4. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Financial instruments (Continued)

Financial assets (Continued)

Amortised cost and effective interest method

The effective interest method is a method of calculating the amortised cost of a debt instrument and of allocating interest income over the relevant period.

For financial assets other than purchased or originated credit-impaired financial assets (i.e. assets that are credit-impaired on initial recognition), the effective interest rate is the rate that exactly discounts estimated future cash receipts (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) excluding expected credit losses (“ECL”), through the expected life of the debt instrument, or, where appropriate, a shorter period, to the gross carrying amount of the debt instrument on initial recognition.

The amortised cost of a financial asset is the amount at which the financial asset is measured at initial recognition minus the principal repayments, plus the cumulative amortisation using the effective interest method of any difference between that initial amount and the maturity amount, adjusted for any loss allowance. The gross carrying amount of a financial asset is the amortised cost of a financial asset before adjusting for any loss allowance.

Interest income is recognised using the effective interest method for debt instruments measured subsequently at amortised cost and at fair value through other comprehensive income. For financial assets other than purchased or originated credit-impaired financial assets, interest income is calculated by applying the effective interest rate to the gross carrying amount of a financial asset, except for financial assets that have subsequently become credit-impaired (see below). For financial assets that have subsequently become credit-impaired, interest income is recognised by applying the effective interest rate to the amortised cost of the financial asset. If, in subsequent reporting periods, the credit risk on the credit-impaired financial instrument improves so that the financial asset is no longer credit-impaired, interest income is recognised by applying the effective interest rate to the gross carrying amount of the financial asset.

Interest income from debt securities are recognised in profit or loss and is included in the “other income and gains, net” (Note 10).

Impairment of financial assets

The Group recognises loss allowance for ECL on investments in debt instruments that are measured at amortised cost. The amount of ECL is updated at each reporting date to reflect changes in credit risk since initial recognition of the respective financial instrument.

The Group always recognises lifetime ECL for trade receivables. The ECL on these financial assets are estimated using a provision matrix based on the Group’s historical credit loss experience, adjusted for factors that are specific to the debtors, general economic conditions and an assessment of both the current as well as the forecast direction of conditions at the reporting date, including time value of money where appropriate.

For all other financial instruments, the Group measures the loss allowance equal to 12-month ECL, unless when there has a significant increase in credit risk since initial recognition, the Group recognises lifetime ECL. The assessment of whether lifetime ECL should be recognised is based on significant increase in the likelihood or risk of a default occurring since initial recognition.

4. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Financial instruments (Continued)

Financial assets (Continued)

Impairment of financial assets (Continued)

Significant increase in credit risk

In assessing whether the credit risk has increased significantly since initial recognition, the Group compares the risk of a default occurring on the financial instrument as at the reporting date with the risk of a default occurring on the financial instrument as at the date of initial recognition. In making this assessment, the Group considers both quantitative and qualitative information that is reasonable and supportable, including historical experience and forward-looking information that is available without undue cost or effort. Forward-looking information considered includes the future prospects of the industries in which the Group's debtors operate, obtained from economic expert reports, financial analysts, governmental bodies, relevant think-tanks and other similar organisations, as well as consideration of various external sources of actual and forecast economic information that relate to the Group's operations.

In particular, the following information is taken into account when assessing whether credit risk has increased significantly:

- an actual or expected significant deterioration in the financial instrument's external (if available) or internal credit rating;
- significant deterioration in external market indicators of credit risk for particular debtor, e.g. a significant increase in the credit spread, the credit default swap prices for the debtor, or the length of time or the extent to which the fair value of a financial asset has been less than its amortised cost;
- existing or forecast adverse changes in business, financial or economic conditions that are expected to cause a significant decrease in the debtor's ability to meet its debt obligations;
- an actual or expected significant deterioration in the operating results of the debtor;
- significant increases in credit risk on other financial instruments of the same debtor;
- an actual or expected significant adverse change in the regulatory, economic, or technological environment of the debtor that results in a significant decrease in the debtor's ability to meet its debt obligations.

Irrespective of the outcome of the above assessment, the Group presumes that the credit risk has increased significantly since initial recognition when contractual payments are more than 30 days past due, unless the Group has reasonable and supportable information that demonstrates otherwise.

Despite the foregoing, the Group assumes that the credit risk on a financial instrument has not increased significantly since initial recognition if the financial instrument is determined to have low credit risk at the reporting date. A financial instrument is determined to have low credit risk if i) the financial instrument has a low risk of default, ii) the borrower has a strong capacity to meet its contractual cash flow obligations in the near term, and iii) adverse changes in economic and business conditions in the longer term may, but will not necessarily, reduce the ability of the borrower to fulfil its contractual cash flow obligations. The Group considers a financial asset to have low credit risk when the asset has external credit rating of 'investment grade' in accordance with the globally understood definition or if an external rating is not available, the asset has an internal rating of 'performing'. Performing means that the counterparty has a strong financial position and there is no past due amounts.

The Group regularly monitors the effectiveness of the criteria used to identify whether there has been a significant increase in credit risk and revises them as appropriate to ensure that the criteria are capable of identifying significant increase in credit risk before the amount becomes past due.

4. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Financial instruments (Continued)

Financial assets (Continued)

Impairment of financial assets (Continued)

Definition of default

The Group considers the following as constituting an event of default for internal credit risk management purposes as historical experience indicates that receivables that meet either of the following criteria are generally not recoverable:

- when there is a breach of financial covenants by the debtor; or
- information developed internally or obtained from external sources indicates that the debtor is unlikely to pay its creditors, including the Group, in full without taking into account any collaterals held by the Group.

The Group considers that default has occurred when a financial asset is more than 90 days past due unless the Group has reasonable and supportable information to demonstrate that a more lagging default criterion is more appropriate.

Credit-impaired financial assets

A financial asset is credit-impaired when one or more events that have a detrimental impact on the estimated futures cash flows of that financial asset have occurred. Evidence that a financial asset is credit-impaired includes observable data about the following events:

- significant financial difficulty of the issuer or the borrower;
- a breach of contract, such as a default or past due event;
- the lender(s) of the borrower, for economic or contractual reasons relating to the borrower's financial difficulty, having granted to the borrower a concession(s) that the lender(s) would not otherwise consider;
- it is becoming probable that the borrower will enter bankruptcy or other financial reorganisation; or
- the disappearance of an active market for that financial asset because of financial difficulties.

Write-off policy

The Group writes off a financial asset when there is information indicating that the debtor is in severe financial difficulty and there is no realistic prospect of recovery, e.g. when the counterparty has been placed under liquidation or has entered into bankruptcy proceedings. Financial assets written off may still be subject to enforcement activities under the Group's recovery procedures, taking into account legal advice where appropriate. Any recoveries made are recognised in profit or loss.

Measurement and recognition of ECL

The measurement of ECL is a function of the probability of default, loss given default (i.e. the magnitude of the loss if there is a default) and the exposure at default. The assessment of the probability of default and loss given default is based on historical data adjusted by forward-looking information. As for exposure at default, for financial assets, this is represented by the assets' gross carrying amount at the report date.

For financial assets, the ECL is estimated as the difference between all contractual cash flows that are due to the Group in accordance with the contract and all the cash flows that the Group expects to receive, discounted at the original effective interest rate.

If the Group has measured the loss allowance for a financial instrument at an amount equal to lifetime ECL in the previous reporting period, but determines at the current reporting date that the conditions for lifetime ECL are no longer met, the Group measures the loss allowance at an amount equal to 12-month ECL at the current reporting date, except for assets for which simplified approach was used.

The Group recognises an impairment gain or loss in profit or loss for all financial instruments with a corresponding adjustment to their carrying amount through a loss allowance account.

Derecognition of financial assets

The Group derecognises a financial asset only when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another party. If the Group neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the Group recognises its retained interest in the asset and an associated liability for amounts it may have to pay. If the Group retains substantially all the risks and rewards of ownership of a transferred financial asset, the Group continues to recognise the financial asset and also recognises a collateralised borrowing for the proceeds received.

On derecognition of a financial asset measured at amortised cost, the difference between the asset's carrying amount and the sum of the consideration received and receivable is recognised in profit or loss.

Financial liabilities and equity instruments

Classification as debt or equity

Debt and equity instruments issued by a group entity are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

Equity instruments

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by a group entity are recognised at the proceeds received, net of direct issue costs.

Repurchase of the Company's own equity instruments is recognised and deducted directly in equity. No gain or loss is recognised in profit or loss on the purchase, sale, issue or cancellation of the Company's own equity instruments.

Financial liabilities

All financial liabilities are subsequently measured at amortised cost using the effective interest method.

4. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Financial instruments (Continued)

Financial liabilities and equity instruments (Continued)

Financial liabilities (Continued)

Financial liabilities subsequently measured at amortised cost

Financial liabilities that are not 1) contingent consideration of an acquirer in a business combination, 2) held-for-trading, or 3) designated as at FVTPL, are subsequently measured at amortised cost using the effective interest method.

The effective interest method is a method of calculating the amortised cost of a financial liability and of allocating interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the financial liability, or (where appropriate) a shorter period, to the amortised cost of a financial liability.

Derecognition of financial liabilities

The Group derecognises financial liabilities when, and only when, the Group's obligations are discharged, cancelled or they expire. The difference between the carrying amount of the financial liability derecognised and the consideration paid and payable, including any non-cash assets transferred or liabilities assumed, is recognised in profit or loss.

Leasing

(Accounting policy applicable on or after 1 April 2019)

Definition of a lease

Under HKFRS 16, a contract is, or contains, a lease if the contract conveys a right to control the use of an identified asset for a period of time in exchange for consideration.

The Group as lessee

The Group assesses whether a contract is or contains a lease, at inception of the contract. The Group recognises a right-of-use asset and a corresponding lease liability with respect to all lease arrangements in which it is the lessee, except for short-term leases (defined as leases with a lease term of 12 months or less) and leases of low value assets. For these leases, the Group recognises the lease payments as an operating expense on a straight-line basis over the term of the lease unless another systematic basis is more representative of the time pattern in which economic benefits from the leased assets are consumed.

Lease liabilities

At the commencement date, the Group measures lease liability at the present value of the lease payments that are not paid at that date. The lease payments are discounted by using the interest rate implicit in the lease. If this rate cannot be readily determined, the Group uses its incremental borrowing rate.

Lease payments included in the measurement of the lease liability comprise:

- fixed lease payments (including in-substance fixed payments), less any lease incentives receivable;
- variable lease payments that depend on an index or rate, initially measured using the index or rate at the commencement date;
- the amount expected to be payable by the lessee under residual value guarantees;
- the exercise price of purchase options if the lessee is reasonably certain to exercise the options; and
- payments of penalties for terminating the lease, if the lease term reflects the Group exercising an option to terminate the lease.

The lease liability is presented as a separate line in the consolidated statement of financial position.

The lease liability is subsequently measured by increasing the carrying amount to reflect interest on the lease liability (using the effective interest method) and by reducing the carrying amount to reflect the lease payments made.

Lease liability is remeasured (and with a corresponding adjustment to the related right-of-use asset) whenever:

- the lease term has changed or there is a change in the assessment of exercise of a purchase option, in which case the lease liability is remeasured by discounting the revised lease payments using revised discount rate.
- the lease payments change due to changes in an index or rate or a change in expected payment under a guaranteed residual value, in which cases the lease liability is remeasured by discounting the revised lease payments using the initial discount rate (unless the lease payments change is due to a change in a floating interest rate, in which case a revised discount rate is used).
- a lease contract is modified and the lease modification is not accounted for as a separate lease, in which case the lease liability is remeasured by discounting the revised lease payments using a revised discount rate.

Right-of-use assets

The right-of-use assets comprise the initial measurement of the corresponding lease liability, lease payments made at or before the commencement date and any initial direct costs, less lease incentives received.

Whenever the Group incurs an obligation for costs to dismantle and remove a leased asset, restore the site on which it is located or restore the underlying asset to the condition required by the terms and conditions of the lease, provision is recognised and measured under HKAS 37 Provision, Contingent Liabilities and Contingent Assets. The costs are included in the related right-of-use asset, unless those costs are incurred to produce inventories.

Right-of-use assets are subsequently measured at cost less accumulated depreciation and impairment losses. They are depreciated over the shorter period of lease term and useful life of the underlying asset. The depreciation starts at the commencement date of the lease.

The Group presents right-of-use assets as a separate line in the consolidated statement of financial position.

The Group applies HKAS 36 Impairment of Assets to determine whether a right-of-use asset is impaired and accounts for any identified impairment loss.

(Accounting policy applicable prior to 1 April 2019)

Leases are classified as finance leases whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee. All other leases are classified as operating leases.

The Group as lessee

Operating lease payments are recognised as an expense on a straight-line basis over the terms of the relevant leases, except where another systematic basis is more representative of the time pattern in which economic benefits from the leases asset are consumed.

4. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Property and equipment

Property and equipment are stated in the consolidated statements of financial position at cost less subsequent accumulated depreciation and accumulated impairment losses, if any.

Depreciation is recognised so as to write off the cost of items of property and equipment less their residual values over their estimated useful lives, using the straight-line method. The estimated useful lives, residual values and depreciation method are reviewed at the end of each reporting period, with the effect of any changes in estimate accounted for on a prospective basis.

An item of property and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of property and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in profit or loss.

Intangible assets

Intangible assets with indefinite useful lives that are acquired separately are carried at cost less any subsequent accumulated impairment losses.

Impairment losses on tangible assets and intangible assets

At the end of the reporting period, the Group reviews the carrying amounts of its tangible assets with finite useful lives to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss, if any.

Intangible assets with indefinite useful lives are tested for impairment at least annually, and whenever there is an indication that they may be impaired.

Where it is not possible to estimate the recoverable amount of an individual asset, the Company estimates the recoverable amount of the cash-generating unit to which the asset belongs. Where a reasonable and consistent basis of allocation can be identified, corporate assets are also allocated to individual cash-generating units, or otherwise they are allocated to the smallest group of cash-generating units for which a reasonable and consistent allocation basis can be identified.

Recoverable amount is the higher of fair value less costs to sell and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which the estimates of future cash flows have not been adjusted.

If the recoverable amount of an asset (or a cash-generating unit) is estimated to be less than its carrying amount, the carrying amount of the asset (or cash-generating unit) is reduced to its recoverable amount. An impairment loss is recognised as an expense immediately in profit or loss.

Where an impairment loss subsequently reverses, the carrying amount of the asset (or cash-generating unit) is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset (or cash-generating unit) in prior years. A reversal of an impairment loss is recognised as income immediately in profit or loss.

Foreign currencies

In preparing the financial statements of each individual group entity, transactions in currencies other than the functional currency of that entity (foreign currencies) are recorded in the respective functional currency (i.e. the currency of the primary economic environment in which the entity operates) at the rates of exchanges prevailing at the dates of the transactions. At the end of the reporting period, monetary items denominated in foreign currencies are retranslated at the rates prevailing at that date. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated.

Exchange differences arising on the settlement of monetary items, and on the retranslation of monetary items are recognised in profit or loss in the period in which they arise.

Taxation

Income tax expense represents the sum of the tax currently payable and deferred tax.

The tax currently payable is based on taxable profit for the year. Taxable profit differs from “(loss) profit before tax” as reported in the consolidated statements of profit or loss and other comprehensive income because it excludes items of income or expense that are taxable or deductible in other years and it further excludes items that are never taxable or deductible. The Group’s liability for current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the consolidated financial statement and the corresponding tax base used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are generally recognised for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilised. Such assets and liabilities are not recognised if the temporary difference arises from goodwill or from the initial recognition (other than in a business combination) of other assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit.

Deferred tax liabilities are recognised for taxable temporary differences associated with investments in subsidiaries, except where the Group is able to control the reversal of the temporary difference and it is probable that the temporary difference will not reverse in the foreseeable future. Deferred tax assets arising from deductible temporary differences associated with such investments and interests are only recognised to the extent that it is probable that there will be sufficient taxable profits against which to utilise the benefits of the temporary differences and they are expected to reverse in the foreseeable future.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset is realised, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Group expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

4. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Taxation (Continued)

For the purposes of measuring deferred tax for leasing transactions in which the Group recognises the right of-use assets and the related lease liabilities, the Group first determines whether the tax deductions are attributable to the right-of-use assets or the lease liabilities.

For leasing transactions in which the tax deductions are attributable to the lease liabilities, the Group applies HKAS 12 Income Taxes requirements to the leasing transaction as a whole. Temporary differences relating to right-of-use assets and lease liabilities are assessed on a net basis. Excess of depreciation on right-of-use assets over the lease payments for the principal portion of lease liabilities resulting in net deductible temporary differences.

Current and deferred tax are recognised in profit or loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity respectively. Where current tax or deferred tax arises from the initial accounting for a business combination, the tax effect is included in the accounting for the business combination.

Short-term employee benefits

A liability is recognised for benefits accruing to employees in respect of wages and salaries, annual leave and sick leave in the period the related service is rendered at the undiscounted amount of the benefits expected to be paid in exchange for that service.

Liabilities recognised in respect of short-term employee benefits are measured at the undiscounted amount of the benefits expected to be paid in exchange for the related service.

Retirement benefit costs

Payments to the Mandatory Provident Fund Scheme are recognised as expenses when employees have rendered service entitling them to the contributions.

Cash and cash equivalents

Cash in the consolidated statements of financial position comprise cash at banks and on hand and short-term deposits with a maturity of three months or less.

For the purpose of the consolidated statements of cash flows, cash and cash equivalents represent cash as defined above.

Borrowing costs

All borrowing costs are recognised in profit or loss in the period in which they are incurred.

4. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Share-based payment transactions

Equity-settled share-based payment transactions

Share options granted to directors, employees, partners and joint-venture partners of the Company or any subsidiary

The fair value of services received determined by reference to the fair value of share options granted at the date of grant is expensed on a straight-line basis over the vesting period and recognised as an expense in full at the grant date when the share options granted vest immediately, with a corresponding increase in equity (share-based payment reserve).

At the end of the reporting period, the Group revises its estimates of the number of options that are expected to ultimately vest. The impact of the revision of the original estimates during the vesting period, if any, is recognised in profit or loss such that the cumulative expense reflects the revised estimate, with a corresponding adjustment to share-based payment reserve.

When share options are exercised, the amount previously recognised in share-based payment reserve will be transferred to share premium. When the share options are forfeited after the vesting date or are still not exercised at the expiry date, the amount previously recognised in share-based payment reserve will be transferred to retained earnings.

Share options granted to advisers, consultants, service providers, agents and customers

Share options issued in exchange for goods or services are measured at the fair values of the goods or services received, unless the fair value cannot be reliably measured, in which case the goods or services received are measured by reference to the fair value of the share options granted. The fair values of the goods or services received are recognised as expenses on a straight-line basis over the vesting period, with a corresponding increase in equity (share-based payment reserve), when the Group obtains the goods or when the counterparties render services, unless the goods or services qualify for recognition as assets.

Awarded shares granted to directors and employees

The fair value of services received determined by reference to the fair value of awarded shares granted at the date of grant is expensed on a straight-line basis over the vesting period, with a corresponding increase in equity (share-based payment reserve).

At the end of the reporting period, the Group revises its estimates of the number of awarded shares that are expected to ultimately vest. The impact of the revision of the original estimates during the vesting period, if any, is recognised in profit or loss such that the cumulative expense reflects the revised estimate, with a corresponding adjustment to share-based payment reserve.

When awarded shares are exercised, the amount previously recognised in share-based payment reserve will be transferred to share premium. When the awarded shares are forfeited after the vesting date or are still not exercised at the expiry date, the amount previously recognised in reserve will be transferred to retained earnings.

5. KEY SOURCES OF ESTIMATION UNCERTAINTY

In the application of the Group's accounting policies, which are described in Note 4 above, the directors of the Company are required to make estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

The followings are the key assumptions concerning the future, and other key sources of estimation uncertainty at the end of the reporting period, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year.

Key source of estimation uncertainty

Provision for ECL on trade receivables

The provision for ECL on trade receivables are based on assumptions about ECL. The Group uses judgement in making these assumptions and selecting the inputs to the ECL calculation, bases on the number of days that an individual receivable is outstanding as well as the Group's historical experience and forward-looking information at the end of the reporting period. Changes in these assumptions and estimates could materially affect the result of the assessment and it may be necessary to make additional impairment charge to the consolidated statement of profit or loss and other comprehensive income. As at 31 March 2020, the carrying amount of the trade receivables was approximately HK\$14,736,000 (2019: HK\$14,465,000), net of accumulated losses allowance for ECL trade receivables of approximately HK\$35,000 (2019: HK\$73,000). More details are given in Note 21.

6. CAPITAL RISK MANAGEMENT

Capital comprises of share capital and reserves stated in the Group's consolidated statement of financial position. The Group's primary objectives when managing capital are to safeguard the Group's ability to continue as a going concern, so that it can continue to provide returns for the shareholders and benefits for other stakeholders, by pricing commensurately with the level of risk and by securing access to finance at a reasonable cost.

The Group manages capital by regularly monitoring its current and expected liquidity requirements. Neither the Group nor subsidiaries, except for De Riva, is subject to externally imposed capital requirements. De Riva is regulated by the Securities and Futures Commission ("**SFC**") and is required to comply with certain minimum capital requirements according to the Securities and Futures Ordinance.

The management monitors De Riva's liquid capital daily and to ensure it meets the minimum liquid capital requirement in accordance with the Securities and Futures (Financial Resources) Rules ("**FRR**") adopted by the SFC. Under the FRR, De Riva must maintain its liquid capital in excess of HK\$3,000,000. The required information was filed with SFC on a monthly basis. De Riva was in compliance with the capital requirements imposed by FRR during both years.

Financial assets		
Financial assets at amortised cost	<u>85,882</u>	83,190
Financial liabilities		
Financial liabilities at amortised cost	<u>6,288</u>	4,777

b) Financial risk management objectives and policies

The Group's major financial instruments include trade receivables, deposits, cash and cash equivalents and other payables and accruals.

Details of the financial instruments are disclosed in respective notes. The risks associated with these financial instruments included credit risk, interest rate risk and liquidity risk. The policies on how to mitigate these risks are set out below. The management of the Group manages and monitors those exposures to ensure appropriate measures are implemented on a timely and effective manner.

(i) Credit risk

Credit risk refers to the risk that the counterparty will default on its contractual obligations resulting in financial loss to the Group. The Group's financial assets include trade receivables, deposits and bank balances.

As at 31 March 2020, the Group's maximum exposure to credit risk which will cause a financial loss to the Group due to failure to discharge an obligation by the counterparties is arising from the carrying amount of the respective recognised financial assets as stated in the consolidated statement of financial position.

In order to minimise the credit risk, the management has delegated a team responsible to determination of credit limits, credit approvals and other monitoring procedures to ensure that follow-up action is taken to recover overdue debts. In addition, the Group reviews the recoverable amount of each individual trade debt at the end of the reporting period to ensure that adequate impairment losses are made for irrecoverable amounts. In this regard, the directors of the Company consider that the Group's credit risk is significantly reduced.

For trade receivables, the Group has applied the simplified approach in HKFRS 9 to measure the loss allowance at lifetime ECL. The Group determines the ECL on an individual basis for customer with significant balances and/or collectively by using a provision matrix, estimated based on historical credit loss experience, as well as the general economic conditions of the industry in which the debtors operate. In this regard, the directors consider that the Group's credit risk is significantly reduced.

7. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (CONTINUED)

b) Financial risk management objectives and policies (Continued)

(i) Credit risk (Continued)

The Group has no significant concentration of credit risk, with exposure spread over a number of counterparties.

Included in the Group's trade receivable balance as at 31 March 2020, approximately HK\$2,658,000 (2019: HK\$2,620,000), representing 18% (2019: 18%) of the total trade receivables, is due from the Group's largest debtor and approximately HK\$8,050,000 (2019: HK\$8,218,000), representing 55% (2019: 57%) of the total receivables, are due from the Group's top 5 debtors.

For other non-traded related receivables, the Group has assessed whether there has been a significant increase in credit risk since initial recognition. If there has been a significant increase in credit risk, the Group will measure the loss allowance based on lifetime rather than 12-month ECL.

The credit risk on liquid funds is limited because the counterparties are banks with high credit ratings assigned by international credit-rating agencies.

All of the balances with bank were deposited in a reputable large commercial bank with high credit rating.

Management considered amount due from a subsidiary to be low credit risk and thus the impairment provision recognised during the year was limited to 12-month ECL.

The Group considers the probability of default upon initial recognition of asset and whether there has been a significant increase in credit risk on an ongoing basis throughout the reporting period. To assess whether there is a significant increase in credit risk, the Group compares the risk of a default occurring on the asset as at the reporting date with the risk of default as at the date of initial recognition. It considers available reasonable and supportive forwarding-looking information. Especially the following indicators are incorporated:

- internal credit rating
- external credit rating
- actual or expected significant adverse changes in business, financial or economic conditions that are expected to cause a significant change to the borrower's ability to meet its obligations
- actual or expected significant changes in the operating results of the borrower
- significant changes in the expected performance and behaviour of the borrower, including changes in the payment status of borrowers in the Group and changes in the operating results of the borrower.

7. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (CONTINUED)

b) Financial risk management objectives and policies (Continued)

(i) Credit risk (Continued)

The Group's current credit risk grading framework comprises the following categories:

Category	Description	Basis for recognising ECL
Performing	For financial assets where there has low risk of default or has not been a significant increase in credit risk since initial recognition and that are not credit impaired (refer to as Stage 1)	12-month ECL
Doubtful	For financial assets where there has been a significant increase in credit risk since initial recognition but that are not credit impaired (refer to as Stage 2)	Lifetime ECL – not credit impaired
Default	Financial assets are assessed as credit impaired when one or more events that have a detrimental impact on the estimated future cash flows of that asset have occurred (refer to as Stage 3)	Lifetime ECL – credit impaired
Write-off	There is evidence indicating that the debtor is in severe financial difficulty and the Group has no realistic prospect of recovery	Amount is written off

The table below details the credit quality of the Group's financial assets, as well as the Group's maximum exposure to credit risk by credit risk rating grades.

	Notes	Internal credit rating	12-month or lifetime ECL	31 March 2020			31 March 2019		
				Gross carrying amount	Loss allowance	Net carrying amount	Gross carrying amount	Loss allowance	Net carrying amount

7. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (CONTINUED)

b) Financial risk management objectives and policies (Continued)

(ii) Interest rate risk

The Group is exposed to cash flow interest rate risk in relation to its variable-rate bank balances which carrying interest at prevailing market rates.

The Group currently does not have an interest rate hedging policy. However, management monitors interest rate exposure and will consider other necessary action when significant interest rate exposure is anticipated.

The Group's exposure to interest rate risk in relation to variable-rate bank balances is minimal due to the amount involved is not significant, hence, no sensitivity analysis is prepared.

(iii) Currency risk

Currency risk is the risk of loss due to adverse movements in foreign exchange rates relating to financial instruments denominated in foreign currency. During both years, the Group had certain bank balances, trade receivables, deposits, other payables and accruals denominated in the United States dollars ("USD"), Japanese Yen ("JPY"), Singapore dollars ("SGD"), Euro ("EUR"), Australian dollars ("AUD") and British Pound ("GBP").

The Group currently does not have a foreign currency hedging policy. However, management monitors foreign exchange exposure and will consider hedging significant foreign currency exposure should the need arise.

The carrying amounts of the Group's foreign currency denominated monetary assets and liabilities, mainly including bank balances, trade receivables, deposits, other payables and accruals during both years are as follows:

	Assets		Liabilities	
	As at 31 March		As at 31 March	
	2020	2019	2020	2019
	HK\$'000	HK\$'000	HK\$'000	HK\$'000
USD	14,162	15,018	266	354
JPY	1,131	1,024	-	-
SGD	2,519	1,309	-	-
EUR	2	3	-	-
AUD	12	14	-	-
GBP	2	2	239	247

The management considered that the currency between HK\$ and USD are subject to a sensitivity rate of 1%. The sensitivity analysis includes only outstanding USD denominated monetary items, and adjusts their translation at the end of the reporting period for a 1% change in USD rates. For a 1% weakening of HK\$ against the USD, as at 31 March 2020, the decrease in post-tax loss was approximately HK\$116,000 (2019: increase in post-tax profit was approximately HK\$122,000).

Notes to the Consolidated Financial Statements

7. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (CONTINUED)

b) Financial risk management objectives and policies (Continued)

(iii) Currency risk (Continued)

The following table details the Group's sensitivity to a 5% change in Hong Kong dollars against the respective foreign currencies. 5% is the sensitivity rate used when reporting foreign currency risk internally to key management personnel and represents management's assessment of the reasonably possible change in foreign exchange rates. The sensitivity analysis includes only outstanding foreign currency denominated monetary items, and adjusts their translation at the end of the reporting period for a 5% change in foreign currency rates. A positive number below indicates a decrease in post-tax loss (2019: increase in post-tax profit) and increase in equity where HK\$ weaken against the respective foreign currencies. For a 5% strengthening of HK\$ against the relevant currency, there would be an equal and opposite impact on the post-tax (loss) profit and equity and the numbers below would be negative.

	Year ended 31 March	
	2020	2019
	HK\$'000	HK\$'000
Decrease (increase) in post-tax loss (2019: increase (decrease) in post-tax profit)		
JPY impact	47	43
SGD impact	105	55
EUR impact	—*	—*
AUD impact	1	1
GBP impact	(10)	(10)

* The balance represents an amount less than HK\$500.

(iv) Liquidity risk

In the management of the liquidity risk, the Group monitors and maintains a level of cash and cash equivalents deemed adequate by the management to finance the Group's operations and mitigate the effects of fluctuations in cash flows.

The following table details the Group's remaining contractual maturity for its non-derivative financial liabilities. The table has been drawn up based on the undiscounted cash flows of financial liabilities based on the earliest date on which the Group can be required to pay. The maturity dates for non-derivative financial liabilities are based on the agreed repayment dates.

The table includes both interest and principal cash flows.

Lease liabilities	1,693	1,693	1,671
	7,981	7,981	7,959

As at 31 March 2019, all financial liabilities are non-interest bearing and their maturity dates are either within one year or repayable on demand.

As at 31 March 2019, all carrying amounts of financial liabilities approximate to the undiscounted cash flows due to the short maturity.

c) Fair value measurements recognised in the consolidated statement of financial position

The directors of the Company consider that the carrying amounts of financial assets and financial liabilities recorded at amortised cost in the consolidated financial statements approximate to their corresponding fair value due to short-term maturities.

8. REVENUE

Revenue represents the amounts received and receivable for services provided in the normal course of business. An analysis of the Group's revenue for both years is as follows:

	Year ended 31 March	
	2020	2019
	HK\$'000	HK\$'000
Revenue from contracts with customers within the scope of HKFRS 15		
Commission income from dealing in securities and futures contracts as a futures non-clearing broker	54,460	65,148

All revenue are recognised at a point in time during the years ended 31 March 2020 and 2019.

Notes to the Consolidated Financial Statements

9. SEGMENT INFORMATION

HKFRS 8 Operating Segments requires operating segments to be identified on the basis of internal reports about components of the Group that are regularly reviewed by the chief operating decision maker (the executive directors of the Company) in order to allocate resources to the segment and to assess its performance.

Information reported to the executive directors of the Company, being the chief operating decision maker, for the purpose of resource allocation and assessment of segment performances focuses on provision of services of dealing in securities and futures contracts as a futures non-clearing broker. During both years, the Group focused on provision of brokerage service and all the assets and major revenue are located and derived in Hong Kong. Accordingly, no segment analysis is prepared.

Information about major customers

Revenue from major customers, each of them accounted for 10% or more of the Group's revenue, are set out below:

On 21 March 2018, the Hong Kong Legislative Council passed The Inland Revenue (Amendment) (No. 7) Bill 2017 (the "Bill") which introduces the two-tiered profits tax rates regime. The Bill was signed into law on 28 March 2018 and was gazetted on the following day. Under the two-tiered profits tax rates regime, the first HK\$2,000,000 of profits of qualifying corporation will be taxed at 8.25%, and profits above HK\$2,000,000 will be taxed at 16.5%. For the year ended 31 March 2020 and 2019, Hong Kong profits tax of the qualified entity of the Group is calculated in accordance with the two-tiered profits tax rates regime. The profits of other Group entities in Hong Kong not qualifying for the two-tiered profits tax rates regime will continue to be taxed at the flat rate of 16.5%.

The income tax expense for the years ended 31 March 2020 and 2019 can be reconciled to the (loss) profit before tax per the consolidated statements of profit or loss and other comprehensive income as follows:

	Year ended 31 March	
	2020	2019

16. DIVIDEND

No dividend was paid or proposed subsequent to the end of the reporting period and up to the date of this report (2019: nil).

17. (LOSS) EARNINGS PER SHARE

Basic and diluted loss per share amount are calculated by dividing the loss for the year ended 31 March 2020 attributable to the owners of the Company of approximately HK\$457,000 by the weighted average number of ordinary shares in issue of 714,169,683 during the year, excluding shares held under the Company's share award scheme.

Basic and diluted earnings per share amount are calculated by dividing the profit for the year ended 31 March 2019 attributable to the owners of the Company of approximately HK\$165,000 by the weighted average number of ordinary shares in issue of 720,547,945 during the year.

The weighted average number of ordinary shares in issue during the year ended 31 March 2019 used in the calculation of basic earnings per share is determined on the assumption that the 10,000 ordinary shares and the 599,990,000 ordinary shares issued upon the capitalisation issue and Reorganisation had been in issue since 1 April 2018.

Diluted (loss) earnings per share is equal to the basic (loss) earnings per share as there were no dilutive potential ordinary shares outstanding during the years.

Trading rights in the Hong Kong Exchanges and Clearing Limited with indefinite useful life.

The trading rights held by the Group are considered by the directors of the Company as having indefinite useful lives because they are expected to contribute net cash inflows indefinitely. The trading rights will not be amortised until their useful lives are determined to be finite. Instead, they will be tested for impairment annually and whether there is an indication that they may be impaired.

No impairment loss on intangible assets is recognised during both years.

21. TRADE RECEIVABLES

As at 31 March 2020, the gross amount of trade receivables arising from contracts with customer amounted to approximately HK\$14,771,000 (2019: HK\$14,538,000).

Notes to the Consolidated Financial Statements

For the year ended 31 March 2020

21. TRADE RECEIVABLES (CONTINUED)

The Group allows an average credit period of 30 days to its trade receivables. Before accepting any new customer, the Group will assess the potential customer's credit quality and defines its credit limits. Credit limits are made to customers with a satisfactory trustworthy credit history.

The following is an ageing analysis of the gross amount of trade receivables presented based on the invoice date.

	As at 31 March	
	2020 HK\$'000	2019 HK\$'000
Within 30 days	8,328	5,958
31-60 days	2,969	3,212

29. SHARE-BASED PAYMENT TRANSACTIONS

(a) Equity-settled Share Option Scheme of the Company

The Company conditionally adopted the share option scheme on 30 July 2018 (the “**Share Option Scheme**”). The purpose of the Share Option Scheme is to enable the Company to grant options to the employee, adviser, consultant, service provider, agent, customer, partner or joint-venture partner of the Company or any subsidiary (including any director of the Company or any subsidiary) who is in full-time or part-time employment with or otherwise engaged by the Company or any subsidiary at the time when an option is granted to such employee, adviser, consultant, service provider, agent, customer, partner or joint-venture partner or any person who, in the absolute discretion of the board of directors of the Company (the “**Board**”), has contributed or may contribute to the Group as incentive or reward for their contribution to the Group to subscribe for our Shares thereby linking their interest with that of our Group.

The Share Option Scheme will remain in force for a period of 10 years commencing on 30 July 2018.

The total number of shares in respect of which options may be granted under the Share Option Scheme is not permitted to exceed 10% of the shares of the Company in issue at any point in time, without prior approval from the Company’s shareholders. The number of shares issued and to be issued in respect of which options granted and may be granted to any individual in any one year is not permitted to exceed 1% of the shares of the Company in issue during any 12-month period, without prior approval from the Company’s shareholders.

The subscription price per Share shall be determined by the directors and shall not be less than the highest of (a) the closing price of our Shares on the Stock Exchange as shown in the daily quotations sheet of the Stock Exchange on the offer date of the grant of the particular option, which must be a business day; (b) the average of the closing prices of our Shares as shown in the daily quotations sheets of the Stock Exchange for the five business days immediately preceding the offer date of that particular option; and (c) the nominal value of a Share on the offer date of the particular option.

An option may be exercised at any time during the period to be determined and notified by the Board to each grantee at the time of making an offer for the grant of an option, but in any event no later than 10 years from the date of grant but subject to the early termination of the Share Option Scheme. A non-refundable remittance of HK\$1 by way of consideration for the grant of options should be made in favour of the Company within such time as may be specified in the offer (which should not be later than 21 days from, and inclusive of, the date of offer).

No share option has been granted under the Share Option Scheme since its adoption. As at 31 March 2020 and 2019, there are no outstanding share options issued under the Scheme.

(b) Share Award Scheme

The Company adopted the share award scheme on 4 April 2019 (the “**Share Award Scheme**”). The purpose of the Share Award Scheme is to recognise and reward the contribution of any employee, director, officer, consultant or adviser of the member of the Group or any affiliate of the Group (“**Eligible Participants**”) to the growth and development of the Group, to give incentives to eligible participants in order to retain them for the continual operation and development of the Group and to attract suitable personnel for further development of the Group. The Share Award Scheme shall be valid and effective for a term of 5 years commencing on the adoption date. The Company has appointed Bank of East Asia (Trustees) Limited, an independent third party, for the administration of the Share Award Scheme.

Under the Share Award Scheme, awarded shares are either (i) purchased on the open market; and/or (ii) subscription of new shares; and/or (iii) otherwise allocated from the share pool. The cost of Shares purchased from the open market and/or subscription of new shares is recognised in equity as shares held for the share award scheme.

The Board shall not make any further award of awarded shares which will result in the number of shares awarded by the Board under the Scheme exceeding 15% of the issued share capital of the Company as at the adoption date.

The Company may select any eligible participant (other than excluded person) for participation in the Share Award Scheme and determine the number of the awarded shares to be awarded to the selected participants (“**Selected Participants**”). The Company is entitled to impose any conditions (including a period of continued service within the Group after the reference date and target revenue of the Group for designated periods), as it deems appropriate with respect to the entitlement of the Selected Participants to the awarded shares.

On 10 April 2019, Mr. Yu contributed 88,000,000 shares to the share pool maintained by the trustee under the Share Award Scheme at nil consideration.

No awarded shares have been granted by the Company under the Share Award Scheme during the year ended 31 March 2020. As at 31 March 2020, there are no outstanding awarded shares issued under the Share Award Scheme.
